Dear Mr. Doherty:

On August 18, 2026, the Office of Energy Infrastructure Safety (Energy Safety) issued a 2024 Annual Performance Report (APR) for Liberty Utilities (CalPeco Electric) LLC ("Liberty"). Per the Energy Safety APR, Liberty may file a response within 14 calendar days of the date of publication.

Liberty respectfully requests an extension to September 11, 2026, to file its response to the APR. Liberty's small team of wildfire mitigation subject matter experts and legal, regulatory, and management resources are focused on the following submissions and priorities prior to September 1, 2026:

- Liberty's 2027 Base WMP due to Energy Safety on August 31, 2026;
- Liberty's Executive Compensation Structure Proposal due to Energy Safety on August 24, 2026;
- 2026 Interagency Safety Briefing on August 20, 2026; and
- Energy Safety Performance Assessment Division site visit to Liberty's service territory on September 1, 2026.

This brief extension would enable Liberty to devote the necessary resources to respond to the APR. If you have any questions or require any additional information, please contact me at:
