Docket # 2024-APR

Patrick Doherty
Program Manager, Performance Assessment Division
Electrical Infrastructure Directorate
Office of Energy Infrastructure Safety
715 P Street, 20th Floor
Sacramento, CA 95814

RE: SDG&E Request for Extension to Provide a Response to Energy Safety's Annual Performance Report for SDG&E's 2024 Wildfire Mitigation Plan

Dear Program Manager Doherty:

On September 16, 2026, the Office of Energy Infrastructure Safety (Energy Safety) issued a 2024 Annual Performance Report (APR) for San Diego Gas & Electric (SDG&E). The cover letter to the APR stated that SDG&E may file a response within 14 calendar days of the date of publication, which would be September 30, 2026.

SDG&E respectfully requests a two-week extension from September 30, 2026 to October 14, 2026 to file its response to the APR. SDG&E's legal, regulatory, and wildfire mitigation teams are currently focused on the following:

- Comments on Energy Safety's Draft Wildfire Mitigation Plan Guidelines due on October 8, 2026
- Errata Testimony for SDG&E's 2026 General Rate Case due on September 30, 2026

SDG&E does not believe this short extension would prejudice Energy Safety or any other stakeholder. Instead, this short extension would provide the necessary time for SDG&E to thoroughly review the APR and provide a meaningful response.

Respectfully submitted,

/s/ Laura M. Fulton
