Re: **PG&E's 2025 Annual Implementation Report, Revision 1 (2025 EC AIR) for the 2023–2025 Wildfire Mitigation Plan (WMP) (Docket #: 2025 EC AIR)**

Dear Mr. Mohammed:

Pacific Gas and Electric Company (PG&E) hereby submits Revision 1 of the 2025 Annual Implementation Report. This submission includes Requirement 3 of the Performance Guidelines (a list of planned budgets versus actuals for each Wildfire Mitigation Plan initiative). Revision 1 reflects completion of PG&E's comprehensive spend analysis and closes the pending item associated with the April 1, 2026, 2025 EC AIR submission. During the finalization of the 2025 Annual Implementation Report (AIR), PG&E identified potential discrepancies between our previously-filed WMP financials and current SAP totals for the 2023 – 2025 period. PG&E initiated an independent, comprehensive review of all WMP-related costs to review accuracy and completeness of the filings.

The submission consists of the following:

- I. Updated Annual Implementation Report
- II. Attachment: Table 4 - WMP Budget

PG&E further notes that, as a result of this analysis, conforming updates to previously submitted materials may be necessary, including the 2025 Annual end-of-year (EOY) file and prior submissions for the 2023-2025 reporting years (Table 11 and ARC).

We appreciate Energy Safety's consideration of this 2025 Annual Implementation Report Revision 1. Please contact me if you need clarification or additional materials.

Sincerely, \_\_\_\_\_/S/\_\_\_\_\_

Jay Leyno

Senior Director, Wildfire Mitigation PMO
