Subject: Bear Valley Electric Service, Inc. Response to Notice of Data Inaccuracy

Dear Patrick Doherty:

Bear Valley Electric Service, Inc. (BVES) is providing a response to the Notice of Data Inaccuracy NODI_PAD_BVES_AXS_20260805_0740 which BVES received on September 23, 2026. The enclosed response describes corrective actions taken or planned by BVES to remedy the findings identified in the Notice and to prevent recurrence.

If you have any questions, or require additional information, please contact Jared Hennen at 909-273-8009 or Tom.Chou@bvesinc.com.

Sincerely,

/s/ Tom Chou

BVES RESPONSE

Notice of Violation: NODI_PAD_BVES_AXS_20260805_0740

Finding: On June 25, 2026, Energy Safety reviewed Bear Valley Electric Service's 2025 Quarters 2, 3, and 4 quarterly spatial data submission. The report is enclosed herewith. Energy Safety found the following data inaccuracies:

Data Inaccuracy 1. The submitted data sets contained a total of 601 grid hardening points. All grid hardening points were accompanied by one or more duplicate point. By including at least one duplicate point for each grid hardening activity, BVES's data make it appear that BVES completed twice as much work than actually occurred.

Response:

Please see attached revised 2025 QDR geodatabase files: BVES_2025_Q2.gdb, BVES_2025_Q3.gdb, and BVES_2025_Q4.gdb.

Duplicate entries have been removed from the Covered Conductor section of the database.
