196	SPO	04	SPO_04	32	No	SPO_04_032	<p>Do pages 121 to 124 (2017-2020) Base RFP? FGSE requires that all agreements or agreements in the process of negotiation be submitted through a cross-functional working group. Provide a detailed description of how these cross-functional working groups operate.</p> <p>A. List each type of document or other type of information that is created for these cross-functional working groups.</p> <p>B. Provide a detailed description of other types of information that are created for these cross-functional working groups.</p> <p>C. Provide a detailed description of other types of information that are created for these cross-functional working groups.</p> <p>D. Do working groups address any issues within a critical segment to determine which critical segment they are?</p> <p>E. For each working group, describe the cross-functional working group's decision and which mitigation will be selected at a given critical segment.</p> <p>F. Explain how the RFP's use of these groups is related to the cross-functional working group's decision about which mitigation will be selected at a given critical segment.</p>	Edie Schmitt	4/30/2015	5/1/2015	5/1/2015	https://www.ecfr.gov/current/title-49/chapter-I/subchapter-B/part-251/subpart-251.101	0	No	6	Wildfire Mitigation Strategy Development	6.1.1
197	SPO	04	SPO_04	33	No	SPO_04_033	<p>Do pages 127 to 130 (2017-2020) Base RFP? FGSE requires that cross-functional working groups be formed to coordinate risk assessments and qualitative operational insights. Provide a list of the working groups.</p> <p>A. Describe how each of these qualitative operational insights can contribute to the mitigation.</p> <p>B. Provide an example. Explain how the key aspects of these qualitative operational insights were used to inform the selection of mitigation or critical segment.</p> <p>C. Describe how each of these qualitative operational insights are integrated into the decision process for Figure FGSE 4.2.1, FGSE 4.2.2, and FGSE 4.2.3 in the 2017-2020 Base RFP.</p> <p>D. Explain the steps in the decision process these qualitative operational insights were used to inform?</p>	Edie Schmitt	4/30/2015	5/1/2015	5/1/2015	https://www.ecfr.gov/current/title-49/chapter-I/subchapter-B/part-251/subpart-251.101	0	No	6	Wildfire Mitigation Strategy Development	6.1.1
198	SPO	04	SPO_04	34	No	SPO_04_034	<p>Do pages 131 to 134 (2017-2020) Base RFP? FGSE requires that cross-functional working groups be formed to coordinate risk assessments and qualitative operational insights. Provide a list of the working groups.</p> <p>A. Describe how each of these local factors can inform mitigation selection.</p> <p>B. Provide an example. Explain how the key aspects of these local factors are integrated into the decision process for Figure FGSE 4.2.1, FGSE 4.2.2, and FGSE 4.2.3 in the 2017-2020 Base RFP.</p> <p>C. Explain the steps in the decision process these local factors were used to inform?</p>	Edie Schmitt	4/30/2015	5/1/2015	5/1/2015	https://www.ecfr.gov/current/title-49/chapter-I/subchapter-B/part-251/subpart-251.101	0	No	6	Wildfire Mitigation Strategy Development	6.1.1
199	SPO	04	SPO_04	35	No	SPO_04_035	<p>Do pages 135 to 138 (2017-2020) Base RFP? FGSE requires that cross-functional working groups be formed to coordinate risk assessments and qualitative operational insights. Provide a list of the working groups.</p> <p>A. Describe how each of these local factors can inform mitigation selection.</p> <p>B. Provide an example. Explain how the key aspects of these local factors are integrated into the decision process for Figure FGSE 4.2.1, FGSE 4.2.2, and FGSE 4.2.3 in the 2017-2020 Base RFP.</p> <p>C. Explain the steps in the decision process these local factors were used to inform?</p>	Edie Schmitt	4/30/2015	5/1/2015	5/1/2015	https://www.ecfr.gov/current/title-49/chapter-I/subchapter-B/part-251/subpart-251.101	0	No	5	Risk Methodology & Assessment	5.1.1
200	SPO	04	SPO_04	36	No	SPO_04_036	<p>Do pages 139 to 142 (2017-2020) Base RFP? FGSE requires that cross-functional working groups be formed to coordinate risk assessments and qualitative operational insights. Provide a list of the working groups.</p> <p>A. Describe how each of these local factors can inform mitigation selection.</p> <p>B. Provide an example. Explain how the key aspects of these local factors are integrated into the decision process for Figure FGSE 4.2.1, FGSE 4.2.2, and FGSE 4.2.3 in the 2017-2020 Base RFP.</p> <p>C.
