Re: Modesto Irrigation District 2026 Wildfire Mitigation Plan

To whom it may concern,

In compliance with Public Utilities Code Section 8387, the Modesto Irrigation District (MID) hereby submits its 2026–2029 Wildfire Mitigation Plan (WMP). The WMP was presented at a public meeting to the MID Board of Directors on August 18, 2026 and adopted by the Board during that meeting. MID conducted its comprehensive revision and independent evaluation as part of the 2026 review cycle.

As part of this comprehensive review cycle, MID did not implement any major changes to the substance of the WMP. All core strategies, programs, and mitigation activities remain consistent with the previously submitted version. Updates made during this cycle were limited to reorganizing and relocating certain sections within the document to improve clarity, readability, and overall flow. No material modifications were made to the underlying wildfire risk assessment, mitigation programs, operational practices, or compliance commitments.

If you have any questions, please contact me by email at Jonathan.Zelinsky@mid.org or by phone at (209)-526-7420.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Jonathan Zelinsky', is written over a light blue circular background.
