

EXTERNAL FILE REFERENCE

1. This file serves as an indication that the confidential data in the attached confidentiality statement is not located within the Energy Safety E-filing system. For technical reasons, it is not possible to submit spatial geodatabase (GDB) files through E-filing and they are instead uploaded through a secure SharePoint interface, as described in Energy Safety Data Guidelines v4.1.
2. Approval of this package, consisting of the signed confidentiality statement and this file as the confidential content through E-filing is considered confirmation that confidentiality statement is accepted and the GDB referenced in the confidentiality statement has indeed been received through the SharePoint system.
