RE: Mussey Grade Road Alliance Request for Data Request Stakeholder Designation

Docket: EUP-PGE

Dear Office of Energy Infrastructure Safety,

The Mussey Grade Road Alliance (MGRA or Alliance) respectfully requests Data Request Stakeholder Designation for the PG&E Electrical Undergrounding Plan (EUP) docket (#EUP-PGE) allowing to issue data requests to PG&E. MGRA has been actively participating in the review of Wildfire Mitigation Plans of PG&E, SCE, and SDG&E since their inception in 2019, and in fact even earlier, as the original proponents of requiring utilities to file catastrophic wildfire plans with the CPUC. The Mussey Grade Road area is typical of wildland urban interface areas in California, and it has been overrun by the Cedar Fire in 2003 and surrounded by the Witch and Guejito fires in 2007. MGRA has been active since 2007 trying to reduce utility wildfire risk in California, and has been involved in the previous two PG&E GRC proceedings due to the fact that safety issues decided for PG&E are likely to set precedent for the rest of the state.

Please designate Joseph W. Mitchell, Ph.D., contact information below, as the MGRA representative responsible for handling data requests.

Joseph W. Mitchell, Ph.D.
M-bar Technologies and Consulting, LLC
