

Public Meeting Announcement

2022 Safety Culture Assessment Public Workshop

The Office of Energy Infrastructure Safety (Energy Safety) will hold a public workshop on August 30, 2022, to discuss a component of Energy Safety’s 2022 Safety Culture Assessment (SCA). This meeting will allow the public to hear presentations and ask questions about the results of the Management Self-Assessments of the large electrical corporations (San Diego Gas & Electric, Southern California Edison, Pacific Gas & Electric Company), a component of the SCA that only applies to the large electrical corporations. In addition, the public will be able to ask questions about the electrical corporations’ safety culture objectives, lessons learned since 2021, and the status of Energy Safety’s 2021 SCA Recommendations.

Energy Safety expects the large electric corporations to submit their Management Self-Assessments by August 15, 2022, and expects to publish the results by August 19, 2022, on the 2022 SCA docket.¹ Energy Safety invites stakeholders, including individual members of the public and local and regional agencies, boards, tribes, and commissions, to submit written comments on the results of the Management Self-Assessments in advance of the workshop date.²
