Energy Safety to Hold Virtual Public Workshop

Implementation of Cost-per-Avoided Ignition and Wildfire Mitigation Plan (WMP) Schedule Pursuant to Senate Bill 254 Requirements

Sacramento - The Office of Energy Infrastructure Safety (Energy Safety) will hold a virtual public workshop (via Microsoft Teams) on Wednesday, December 17, 2025, from 2 p.m. to 5 p.m., to gather feedback and information to aid in the implementation of Senate Bill 254 (SB 254) requirements as they relate to WMP submission. Members of the public, local and regional agencies, boards, tribes, commissions, and other stakeholders are invited to participate in the public workshop.

Discussion topics for this public workshop will center around the new requirement for WMPs to include an estimated cost-per-avoided ignition for each risk. Questions for discussion during the workshop will be released via the WMP Guidelines and 2026-2028 Base WMP Dockets prior to the event. Stakeholders may provide written responses or comments to these questions via e-filing in the WMP Guidelines Docket by January 19, 2026.

The discussion and question responses will aid Energy Safety in developing guidelines for electrical corporations to submit 4-year WMPs in accordance with Public Utilities Code section 8386, as amended by SB 254.

Stakeholders may also propose topics for the next public workshop by January 19, 2026, via email to Robert Warwick (Robert.Warwick@energysafety.ca.gov).
