Liberty Response

Energy Safety Finding: Energy Safety found a “Moderate” Adherence to Protocol defect at WMP-VM-VFM-01 at pole ID 293554 in HFTD Tier 2. Liberty did not perform its Pole Clearing program (WMP initiative number 8.2.3.1) as required in the WMP and Section 4.1.3 in Liberty’s Vegetation Management Plan, VM-02 Ver.3. This resulted in dry Russian thistle and yellow rabbitbrush vegetation present within 10-foot radius and 8-foot height clearance requirement of the pole.
