RE: CA 2025-WMPs
OEIS-P-WMP_2025-PC-20

Please find enclosed PacifiCorp's Response to OEIS Data Request 20.1.

If you have any questions, please call me at (503) 813-7314.

Sincerely,

 /s/
Pooja Kishore
Manager, Regulation

OEIS Data Request 20.1

Regarding Tracking HFTD vs. Non-HFTD WMP Expenditures:

The Data Guidelines require that PacifiCorp submit “actual and projected costs of initiatives,” with those costs “broken out by total territory and HFTD.”¹ In its WMP data submission, PacifiCorp could not provide “actual ... costs of initiatives” for 2025, or estimates based on its historical expenditure data from the HFTD.

- (a) Provide the date (month and year) when PacifiCorp will be compliant with the Data Guidelines requirement to provide actual and projected expenditures broken out by total territory and HFTD.
- (b) If PacifiCorp does not know when it will be compliant with the Data Guidelines requirement to provide actual and projected expenditures broken out by total territory and HFTD, when does it expect to be?

Response to OEIS Data Request 20.1

- (a) PacifiCorp provided projected expenditures in the manner requested by Energy Safety in filing “PC_2026-WMP_R1” in Docket #2025 Data Submissions posted on December 10, 2025. Beginning with the 2025 annual end of year data submission, PacifiCorp will split out financial data in the manner requested by Energy Safety. Going forward, all projected and actual financials will be reported in this manner. Initiatives that cannot be split this way will be documented with a detailed explanation as to why they cannot be split out between high fire threat district (HFTD) and total territory.
- (b) Please refer to the Company’s response to subpart (a) above.
