

**CALIFORNIA UNDERGROUND SAFETY BOARD  
INVESTIGATION DIVISION**

**INVESTIGATION REPORT**

**Date:** December 9, 2025  
**Case No.:** N2426177

**Violations:**

Victor's Rooter & Plumbing SVC  
Government Code § 4216.2(b):

Excavating without first notifying the regional notification center of intent to excavate.

Government Code § 4216.4(c)(1):

Excavator failure to call 911 emergency services upon discovering or causing damage to subsurface installation resulting in the escape of flammable, toxic, or corrosive gas or liquid.

Government Code § 4216.4(c)(3):

Excavator failure to report to the regional notification center within 48 hours of discovering or causing damage to a subsurface installation.

**Executive Summary:**

On August 21, 2024, Victor's Rooter & Plumbing SVC was digging to repair a sewer line for a homeowner without first contacting the regional notification center and, with a trench shovel, damaged a 1/2" plastic gas service line. The sewer line was causing a backup for the homeowner due to root intrusion in the sewer line. Upon the escape of natural gas from the subsurface installation, Victor's Rooter & Plumbing SVC did not contact 911 emergency services to report it. Victor's Rooter & Plumbing SVC failed to report the damage to DigAlert, the regional notification center. No one was injured, and no equipment, other than the 1/2" plastic gas service line, was damaged.

**Reporting Party Information:**

Southern California Gas Company  
Regional Notification Center Member Code (SCG0G1)

**Date of Incident:**  
August 21, 2024

**Location of the Incident:**

4714 Saloma Avenue  
Sherman Oaks, California 91403

**Operator:**

Southern California Gas Company  
Regional Notification Center Member Code (SCG4U5)

[REDACTED]

**Excavator:**

Victor's Rooter & Plumbing SVC

[REDACTED]  
[REDACTED]

**Facility Type Damaged:**

1/2" plastic gas service line

**Investigation:****Notification of the Incident**

On September 17, 2024, at 2:25 p.m., the Southern California Gas Company submitted a notification of an incident to the California Underground Safety Board (Board). The notification stated, "Third party contractor was performing excavation to fix sleeve on sewer drain. While in the process, the contractor struck a 1/2" plastic service with a shovel." (Exh. 1.)

The case was assigned to Investigator Adrian Anaya (Investigator).

**Excavation and Identity of the Excavator**

Government Code section 4216(g) defines "excavation" to be the use of tools or equipment to move or displace earth, rock, or other material in the ground.

Government Code section 4216(h) defines an excavator to be "any person, firm, contractor or subcontractor, owner, operator, utility, association, corporation, partnership, business trust, public agency, or other entity that, with their own employees or equipment, performs any excavation."

On October 31, 2024, Investigator conducted a telephone interview with Victor Curiel (Curiel), owner of Victor's Rooter and Plumbing SVC. Curiel stated he was hired by the homeowner at 4714 Saloma Avenue, Sherman Oaks, California 91403, to do an "emergency" repair as the house's sewage was backing up due to root intrusion in the sewer pipe. (Exh. 2.) Furthermore, Curiel stated it was an emergency repair on private property, and a four by four hole was dug, using a trench shovel, in order to access and repair the sewer pipe.

Victor's Rooter and Plumbing SVC was licensed, as of October 31, 2024, with the California Contractors State License Board, license number 1004608, with a C36-Plumbing and a C42-Sanitation System Classifications. (Exh. 3.)

**Victor's Rooter & Plumbing SVC Did Not Contact the Regional Notification Center Before Excavating**

Government Code section 4216.2(b) states that, except in an emergency, "an excavator planning to conduct an excavation shall notify the appropriate regional notification center of the excavator's intent to excavate at least two working days, and not more than 14 calendar days, before beginning that excavation. The date of the notification shall not count as part of the two-working-day notice."

On October 31, 2024, Investigator conducted a telephone interview with Curiel. During the interview, Curiel stated that he had not notified the Regional Notification Center prior to digging at the incident location on August 21, 2024. Curiel stated the reason he did not contact the regional notification center was because he was working on private property for an emergency service repair that was causing a backup for the homeowner. (Exh. 2.)

On October 31, 2024, Investigator emailed Amber Dahl, DigAlert's Safety Awareness Director, requesting all tickets and electronic positive responses for 4714 Saloma Avenue, Sherman Oaks, California 91403, on August 21, 2024. (Exh. 4.)

On November 1, 2024, Director Dahl emailed the Investigator that DigAlert had searched from February 21, 2024, through August 21, 2024, and was unable to find any DigAlert tickets for the location at or near 4714 Saloma Avenue, Sherman Oaks, California 91403, for August 21, 2024. (Exh. 5.)

**Victor's Rooter & Plumbing SVC Did Not Call 911 Emergency Services Upon Causing the Natural Gas Escape**

Government Code section 4216.4(c)(1) states "an excavator shall immediately call 911 emergency services upon discovering or causing damage" to a gas or hazardous liquid pipeline subsurface installation in which the damage results in the escape of any flammable, toxic, or corrosive gas or liquid.

On October 31, 2024, during the telephone interview with Investigator, Curiel stated that on August 21, 2024, while using a trench shovel to repair the sewer line that was backing up due to root-intrusion, he damaged a 1/2" plastic gas service line at the incident location which caused gas to leak. Further, Curiel stated he immediately contacted the Southern California Gas Company (SoCalGas) and SoCalGas arrived in twenty minutes to repair the leak. Curiel stated he notified the homeowner and a neighbor. Curiel reported that he did not call 911. (Exh. 2.)

On December 10, 2024, Investigator emailed the Los Angeles Fire Department to request a fire report for 4714 Saloma Avenue, Sherman Oaks, California 91403, on August 21, 2024. That

same day, December 10, 2024, the Los Angeles Fire Department reported no fire report existed for 4714 Saloma Avenue, Sherman Oaks, California 91403, on August 21, 2024. (Exh. 6.)

**Victor's Rooter & Plumbing SVC Did Not Report The Natural Gas Line Damage To The Regional Notification Center**

Government Code section 4216.4(c)(3) requires that, except as provided in a different subsection, "an excavator shall notify the regional notification center within 48 hours of discovering or causing damage to any subsurface installation."

On October 31, 2024, Investigator conducted a telephone interview with Curiel during which he admitted he had not contacted the regional notification center after damaging the 1/2" plastic natural gas service line on August 21, 2024. (Exh. 2.)

**Findings:**

1. Victor's Rooter & Plumbing SVC did not contact the regional notification center before digging to repair a sewer line on August 21, 2024, at 4714 Saloma Avenue, California 91603, because Victor Cruel stated he was working on private property for an emergency service repair that was causing a backup for the homeowner.
2. Victor's Rooter & Plumbing SVC did not report the damaged subsurface installation and the natural gas escape to the regional notification center within 48 hours of its discovery.
3. On August 21, 2024, Victor's Rooter & Plumbing failed to call 911 emergency services to report the escaping gas from the subsurface installation after it was damaged by a trench shovel.

Notification Details

Was SoCalGas notified of the proposed excavation by the Regional Notification Center before 8/21/2024?

No

What date and time did you learn of the damage to the facility?

August 21, 2024 10:05 AM

How did SoCalGas learn of the damage to the facility?

Intercompany email notification

### Facility Damaged

What kind of facility was damaged on 8/21/2024?

Natural Gas

### Natural Gas

What type of material was the damaged facility?

Plastic

Facility diameter (inches)?

0.5

### Incident Details

What kinds of excavation equipment did you observe at the location of the damaged facility?

Shovel

Do you know what equipment damaged the facility?

Yes

What equipment damaged the facility?

Shovel

What information are you relying on regarding damage to the facility?

Eyewitness statement, Photographs, Interview with excavator

Did SoCalGas contact the Regional Notification Center before repairing the damaged facility?

No

Provide any other relevant information about the damage on 8/21/2024.

Contractor excavated front yard for sewer. while in the process, they damaged 0.5-inch plastic gas line with shovel. No USA for excavation.

### Damages

Were there any injuries to any personnel or bystanders due to the damage to your facility on 8/21/2024?

No

Was any property damaged other than the damaged facility?

No

Was there a fire caused by this damage on 8/21/2024?

No

Was there an evacuation of any nearby homes or businesses caused by this damage on 8/21/2024?

No

Provide an estimate of the number of your customers whose service was interrupted by this damage on 8/21/2024.

1

### Conclusions

What date and time were repairs completed to the damaged facility?

August 21, 2024 11:31 AM

Please explain why you think the facility was damaged on 8/21/2024?

0.5-inch plastic gas service was broken with gas escape.

Is there any other information which you feel is important to share about this incident?

Not counting your answers to these questions, did SoCalGas create an investigatory or incident report pertaining to the damage on 8/21/2024?

Yes

Please attach investigatory or incident report here.

USB Damage Report Form Template AA Copy.docx, 0.02MB

Have your answers to these questions and or the documents you are sending today been reviewed, changed or amended by anyone?

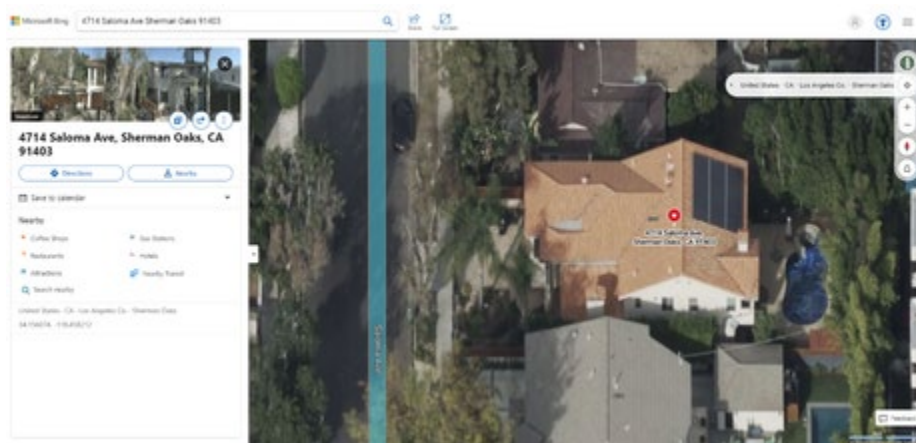

No

**CALIFORNIA UNDERGROUND SAFETY BOARD  
INVESTIGATION DIVISION  
INTERVIEW REPORT**

**REPORT DATE:** October 31, 2024

**CASE NO:** N2426177

**DATE AND TIME OF INTERVIEW:** October 31, 2024, 3:07 pm

**LOCATION OF INTERVIEW:** Phone

**INTERVIEWER:** Adrian Anaya (Investigator)

**NAME, TITLE, AND COMPANY OF INTERVIEWEE:**

Victor Manuel Curiel, Sole Owner  
Victor's Rooter and Plumbing SVC

[REDACTED]  
[REDACTED]

**Narrative:**

On October 31, 2024, the Investigator contacted Victor Manuel Curiel (Curiel), Sole Owner of Victor's Rooter and Plumbing SVC, via telephone. Curiel provided an email address of [vmc1vmc1@redacted.com](mailto:vmc1vmc1@redacted.com) and confirmed his Contractor State License Number 1004608. Curiel reported that his company was excavating, with their trench shovel, to repair the sewer line for a homeowner. Curiel stated the homeowner hired him since the homeowner had sewage backup due to root intrusion in the sewer pipe. Curiel stated it was an emergency repair and that he was performing the hand digging when they hit the gas service line. Curiel indicated they dug a four-by-four hole into the soil in order to access and repair the sewer line. Curiel reported there was an abandoned steel line discovered, and the yellow gas service line was a foot away from that steel line.

Curiel indicated he did not contact the Regional Notification Center (811) prior to excavating due to the fact that they were working on a private property. Curiel reported no other companies were present, other than a tree service company, during the incident. Curiel stated he had two (2) employees working with him named Jesus Diaz and Eduardo Gomez. Curiel stated he contacted the Southern California Gas Company (SoCalGas) immediately after the incident and SoCalGas

arrived in twenty minutes to repair the leak. Curiel stated he notified the homeowner and a neighbor as well. Curiel reported no injuries nor fires occurred during the incident. Curiel stated he does not remember contacting 811 after the incident to report the damage and that he did not call 911. Curiel stated he would continue to contact 811 and hand dig as much as possible to prevent similar damage in the future.
