Docket# 2025-SCs

February 25, 2026

Caroline Thomas Jacobs
Director, Office of Energy Infrastructure Safety
715 P Street, 20th Floor
Sacramento, CA 95814

SUBJECT: Southern California Edison Company's 2025 Safety Certification Request – Addendum 2

Dear Director Thomas Jacobs:

Pursuant to California Public Utilities Code Section 8389 and the Office of Energy Infrastructure Safety's ("Energy Safety") Safety Certification Guidelines,¹ Southern California Edison Company ("SCE") hereby submits this second addendum to its safety certification request.²

SCE timely submitted its safety certification request on December 2, 2025, noting that Energy Safety was still in the process of considering its 2024 Safety Culture Assessment report ("SCA Report"), its 2025 Executive Compensation submission, and its 2026-2028 Wildfire Mitigation Plan ("WMP").³ On January 27, 2026, SCE filed its first addendum to its safety certification request. In that addendum, SCE submitted its acceptance of the 2024 Safety Culture Assessment Report and Energy Safety's Final Decision approving SCE's 2025 executive compensation structure.⁴

SCE submits this second addendum to provide an update on its 2026-2028 WMP approval. On February 23, 2026, Energy Safety issued a Final Decision approving SCE's 2026-2028 WMP. This approval meets the requirement under Public Utilities Code Section 8389(a)(1).

With this update, SCE has provided all of the documentation required under Public Utilities Code Section 8389(a) for a safety certification and respectfully requests that Energy Safety issue SCE's 2025 safety certification.

¹ See Office of Energy Infrastructure Safety's Safety Certification Guidelines Version 1.0 ("Safety Certification Guidelines"), April 28, 2025, available at [OEIS Safety Certification Guidelines Version 1.0](#), pp. 2-3.

² Effective September 19, 2025, California Public Utilities Code § 8389, as amended by Senate Bill 254 ("SB 254"), uses the term "certificate" to refer to the "Safety Certification" in Energy Safety's Safety Certification Guidelines. Energy Safety's Safety Certification Guidelines were issued prior to the enactment of SB 254.

³ See Southern California Edison Company's Safety Certification Request, December 2, 2025, available at [SCE 2025 Safety Certificate Request](#).

⁴ See Southern California Edison Company's 2025 Safety Certification Request – Addendum 1, January 27, 2026, available at [SCE 2025 Safety Certification Request - Addendum 1](#).

Please do not hesitate to contact me or our Managing Director of State Regulatory Operations, Rebecca Furman, should you have any questions regarding this submission.

Sincerely,

//s//
