**RE: PacifiCorp's Response to Notice of Non-Performance –  
PAD\_PC\_BKA\_20251008\_1344**

Dear Patrick Doherty:

PacifiCorp provides the following response to the finding identified in the “Notice of Non-Performance, “NON\_PAD\_PC\_BKA\_20251008\_1344” (NON) issued by the Office of Energy Infrastructure Safety (Energy Safety) on February 26, 2026. On October 8, 2025, Energy Safety conducted an inspection of PacifiCorp’s WMP initiatives in the vicinity of the City of Weed, California.

Energy Safety found the following deficiency:

**Deficiency 1.** Energy Safety observed that in implementing 2025 WMP initiative 8.1.2.12 - Expulsion Fuse Replacements, PC failed to complete the installation of CAL FIRE-approved non-expulsion fuse on Pole ID 06241005.026600, Grid Hardening ID 8077661, at coordinates 41.4293338392048, -122.388872. Energy Safety considers this non-performance to be in the Minor risk category. PC must complete a corrective action for this deficiency by 12 months from this date of notice.

**PacifiCorp Response:**

In response to the Notice of Non-Performance, the Company conducted a field inspection on March 6, 2026. All expulsion fuses were removed, and new cutouts with solid blades were installed. This location should not have been reported under Initiative GH-05, as it remains non-exempt.

PacifiCorp appreciates the opportunity to provide this response to Energy Safety's NON\_PAD\_PC\_BKA\_20251008\_1344.
