Re: **PG&E's 2025 Annual Implementation Report (2025 EC AIR) for the 2023-2025 Wildfire Mitigation Plan (WMP) (Docket #: 2025 EC AIR)**

Dear Mr. Mohammed:

Pursuant to the Office of Energy Infrastructure Safety's (Energy Safety) Performance Guidelines (Guidelines), Pacific Gas and Electric Company (PG&E) respectfully submits the 2025 Annual Implementation Report for our 2023-2025 WMP. The submission consists of the following:

- I. Executive Summary
- II. Elements to be Included in our Annual Report on Compliance
 - 1.a. Plan Objectives
 - 1.b. 3-Year and 10-Year Objectives: In-Progress
 - 1.c. 3-Year and 10-Year Objectives: Completed
 - 1.d. Attachment Table 3 WMP Targets and Table 3a Risk Values
- III. Conclusion

Currently, we are unable to submit the requirement 3 from the Guidelines (List of Planned Budget Vs Actual for each initiative in WMP) as we need more time to do a comprehensive spend analysis. Given the scope of the analysis required it might take us 4-6 weeks to complete. We also want to state that this analysis might result in us having to submit Annual EOY file for 2025 and other previous submissions (2023-2024 Table 11 and 2023-2024 ARC).

We appreciate Energy Safety's consideration of this 2025 Annual Implementation Report. Please do not hesitate to reach out should you need any clarifications or additional materials.

Sincerely, _____/S/_____

Jay Leyno

Senior Director, Wildfire Mitigation PMO
