Re: Utility Data Submission Portal Rollout

Energy Safety Data Guidelines Stakeholders,

The schedule for Utility Data Submission Portal (UDSP) rollout is presented in Attachment 1 to this letter. Details about the purpose and design for UDSP were presented in Section 2.3.3 of the Energy Safety Data Guidelines v4.1¹.

The Office of Energy Infrastructure Safety (Energy Safety) developed UDSP as a submission portal for self-service validation and upload of Wildfire Mitigation Data Tables² for electrical corporations. For data continuity purposes, UDSP will be rolled out in three phases, allowing for adequate testing and user training. Additional information on these phases is available in Section 2.3.3 of the Energy Safety Data Guidelines v4.1.

Sincerely,

Clayton Strawn
Research Data Supervisor II, Data Analytics Division
Office of Energy Infrastructure Safety

² Energy Safety Data Guidelines v4.1, Section 4

Attachment 1 – Utility Data Submission Portal Rollout Schedule

Phase 0: The electrical corporation must provide its submission directly through the E-filing system during the period of **1/1/2026 – 7/31/2026**, up to and including the Q1 2026 data submission.

- Energy Safety may invite some electrical corporations to test UDSP in a pilot state during the period of **4/27/2026 – 5/8/2026**.
- Energy Safety may send out a notice of a workshop for all electrical corporations to test UDSP on a voluntary basis during the period **5/1/2026 – 5/31/2026**.

Phase 1: The electrical corporation must provide its submission both through E-filing system and through UDSP during the period of **8/1/2026 – 10/31/2026**, beginning with and including the Q2 2026 data submissions.

Phase 2: The electrical corporation must provide its submission through UDSP starting **11/1/2026** and onward, beginning with and including the Q3 2026 data submissions.
