

Summary of Changes to TID 2021 Wildfire Mitigation Plan

September 8, 2021

This document provides a summary of the key updates to Turlock Irrigation District's 2021 Wildfire Mitigation Plan (WMP) that was submitted to the Wildfire Safety Advisory Board on July 2, 2021 along with TID's Informational Response Template responding to the advisory opinions expressed by the Wildfire Safety Advisory Board from the 2020 WMP submission.

This document is intended to assist the Wildfire Safety Advisory Board as they review TID's 2021 WMP updates.

3.0 TID Profile and Service Area

- TID updated Section 3.3 in the 2021 WMP to reflect governance structure changes.

4.0 Wildfire Risks and Drivers

- TID updated Section 4.1 to convey the completion of the Enterprise Risk Management Plan.

6.0 Wildfire Preventative Strategies

- TID updated Section 6.3 to convey work conducted and completed in 2020 and to describe 2021 wildfire mitigation efforts.
- In Section 6.8 TID explained two PSPS events that occurred in 2020.

7.0 Public and Agency Communication for Potential Wildfire or Power Shutoff

- TID added Section 7.2.1 to the 2021 WMP providing an overview of how TID responded to the SCU Lightning Complex Fire which occurred in August, 2020.
 - TID provided a map of the SCU Lightning Complex Fire (pg. 28 Figure 10) in the 2021 WMP.
 - TID also provided an updated map on the Don Pedro Fire (pg. 27 Figure 9).
- In Section 7.4 TID highlighted its TID Alerts system that will notify customers of record in elevated high fire risk zones of Public Safety Power Shutoffs (PSPS).

8.0 Restoration of Service

- TID added Section 8.2.1 to the 2021 WMP highlighting restoration actions taken by TID staff after the August, 2020 SCU Lightning Complex Fire.

9.0 Evaluation Plan Performance

- TID updated Section 9.1 to reflect organizational changes concerning roles and responsibilities for plan execution.
