

Summary of Key Changes in the City of Lompoc 2021 Wildfire Mitigation Plan

October 19, 2021

This document provides a summary of the key changes between City of Lompoc Electric Division's (Lompoc Electric) current Wildfire Mitigation Plan (WMP) dated June 15, 2021, and Lompoc Electric's prior Wildfire Mitigation Plan dated December 17, 2019. As part of its 2021 submission to the Wildfire Safety Advisory Board (WSAB), Lompoc Electric provided an Informational Response document, which responded to each of the recommendations made by the WSAB in the *Guidance Advisory Opinion for the 2021 Wildfire Mitigation Plans of Electric Publicly Owned Utilities and Cooperatives*.

This document is intended to simplify the process of reviewing Lompoc Electric's current WMP, but does not represent a comprehensive identification of every single update to Lompoc Electric's WMP. Further, this summary is not part of or a supplement to Lompoc Electric's WMP. Therefore, a full review Lompoc Electric's wildfire mitigation efforts should be based on the actual WMP and Informational Response documents.

1. WMP Metrics and Performance

As described in section [VIII] of Lompoc Electric's WMP, Lompoc Electric measures the performance of its WMP by tracking the following metrics: [(1) fire ignitions; and (2) wires down events].
