**RE: SDG&E Comments on Energy Safety's RSE Workshop
Docket RSE-Group**

Dear Director Thomas Jacobs:

SDG&E appreciates the opportunity to participate in the Risk Spend Efficiency (RSE) workshop that was held by Energy Safety on December 9, 2021. SDG&E looks forward to the opportunity to participate in ongoing discussion facilitated by Energy Safety around RSEs. Given that the evolution of RSEs can have significant impacts across organizations and programs, SDG&E suggests allowing a commensurate amount of time to allow for new ideas to develop around best practices and taking a paced approach with any potential changes.

While SDG&E has no additional comments on the matters preliminarily discussed at the workshop beyond those submitted prior to the workshop, SDG&E understands that Energy Safety may continue to consider additional guidelines regarding RSEs and their use in the electrical corporations' Wildfire Mitigation Plans (WMPs). To that end, SDG&E requests that stakeholders, including SDG&E, be afforded the opportunity to provide comment on any further guidelines or requirements under consideration by Energy Safety.

SDG&E looks forward to working with Energy Safety on this matter.

Respectfully submitted,

/s/ Laura M. Fulton
