

Workshop on Non-Violation Safety Lessons in Investigations

Public Meeting Announcement

The Office of Energy Infrastructure Safety (Energy Safety) Underground Safety Board (Board) will hold a public meeting on February 22, 2022 to discuss the Board's development of safety lessons discovered during Board's investigations. While investigations often find violations of law, they also uncover other safety issues and near-misses. This meeting will be a chance to share your expertise in safety training and education and to impact future development of the Board's educational content. This meeting will include a public comment period.

Energy Safety wishes to invite members of the public, stakeholders, and local and regional agencies, boards, tribes, and commissions to participate in the discussion and public comment. Energy Safety is also accepting written public comments prior to the public meeting.

To join the meeting via Zoom, please click [here](#).
