

San Diego Gas & Electric Company's Q4 QDR Errata

April 25, 2022

Pursuant to Energy Safety’s 2021 WMP Change Order Decision on April 11th, 2022 SDG&E provides this errata summarizing the impacts of this decision on 2021 reports. A copy of this report is being provided to the California Office of Energy Infrastructure Safety (OEIS) docket.

SDG&E’s Q4 Quarterly Data Report (QDR) Errata

No changes are necessary to SDG&E’s Q4 QDR.

SDG&E’s Quarterly Initiative Update (QIU) errata

No changes are necessary to SDG&E’s Q4 QIU.

SDG&E’s Annual Report on Compliance (ARC) errata

The Change Order decision affected the following initiatives which received the determination of “No Change Necessary” from SDG&E’s 2021 Change Order Report that was submitted on November 1, 2021.

For 7.3.3.8.2 - Microgrids, SDG&E requested the reduction of the target from two microgrids to zero microgrids in 2021. “Approval” was given for Cameron South while “No Change Necessary” was given for Sherilton Valley. This reduced the original target from two microgrids to one microgrid.

For 7.3.3.11.3 - Resiliency Assistance Programs, the target was reverted to the original value as submitted with the 2021 WMP Update.

Initiative	Original Target	Change Order Target	Final Target
7.3.3.8.2 - Microgrids	2	0	1
7.3.3.11.3 – Resiliency Assistance Programs	1250	600	1250
