**BY ENERGY SAFETY E-FILING**

**SUBJECT:** Southern California Edison Company's Response to Notice of Violation  
- SCE ATJ 20211207-01 (Request to Withdraw)

Dear Koko Tomassian:

Southern California Edison Company (SCE) submitted a request for written hearing on March 28, 2022 for Notice of Violation - SCE ATJ 20211207-01 specifically finding #5.

After further discussions with Office of Energy Infrastructure Safety's (Energy Safety) that this finding could be closed without further action, SCE requests to withdraw the written hearing request for this specific finding. As SCE communicated, on March 10, 2022, SCE reviewed the structure and did not observe a loose dead-end clamp and no violation should have been found and SCE reserves the right to challenge this finding in the future. SCE appreciates Energy Safety's effort to identify, communicate, and work together to resolve potential wildfire risks.

If you have any questions, or require additional information, please contact Liz Leano at 626-302-3662 or Elizabeth.Leano@sce.com. SCE is looking forward to address findings as appropriate and work to support clarification of the inspection process as Energy Safety expands the geographic scope of its inspection program in 2022.

Sincerely,

//s//

Shinjini C Menon  
VP Asset Management & Wildfire Safety  
Southern California Edison
