To: 2022 Wildfire Mitigation Plans docket (#2022-WMPs)
Subject: Addendum to Attachment 5 of the 2022 Wildfire Mitigation Plan Guidelines

Dear Wildfire Mitigation Plan stakeholders,

On December 15, 2021, the Office of Energy Infrastructure Safety (Energy Safety) issued the 2022 Wildfire Mitigation Plan (WMP) Guidelines (Guidelines).¹ This letter is an addendum to Attachment 5 of the Guidelines correcting an error in Table 3, “2022 Quarterly Report Schedule.”

Within Attachment 5 of the Guidelines the deadline for the third quarter Quarterly Data Report for 2022 was erroneously listed in Table 3 as December 1, 2022. The date for the third quarter Quarterly Data Report for 2022 should be November 1, 2022. Table 3 is corrected and provided below. There are no further changes to Table 3.
