Re: City of Healdsburg's 2022 Wildfire Mitigation Plan Update

To Whom It May Concern,

In compliance with Public Utilities Code section 8387, attached is the City of Healdsburg's (City) 2022 Wildfire Mitigation Plan Update. The plan was adopted by the City's elected Council and utility staff are currently implementing the plan's requirements.

Due to the timing of the Council approval and the release of the Wildfire Safety Advisory Board's (WSAB) guidance for Publicly Owned Utilities, the City did not have sufficient time to incorporate the WSAB's 2021 advisory opinion. However, those recommendations are being considered and reviewed for incorporation into future mitigation plans.

If you have any questions regarding the plan, please contact me. I can be reached by email at [tcrowley@ci.healdsburg.ca.us](mailto:tcrowley@ci.healdsburg.ca.us) or by phone at (707)431-3340.

Regards,

Terry Crowley P.E.  
Healdsburg Municipal Utility Director
