VIA OEIS E-FILING

Caroline Thomas Jacobs, Director Office of Energy Infrastructure Safety 715 P Street, 20th Floor Sacramento, CA 95814 Caroline.ThomasJacobs@energysafety.ca.gov

RE: Reply Comments to Public Comments on PacifiCorp's 2022 Wildfire Mitigation Plan Update

Dear Director Jacobs:

Pursuant to the Office of Energy Infrastructure Safety's (Energy Safety) 2022 Wildfire Mitigation Plan (WMP) Update Guidelines, Attachment 5: Guidelines for Submission and Review of 2022 WMP Updates, and Energy Safety's June 15, 2022 Rejection for Incompleteness and Order to Resubmit PacifiCorp's 2022 WMP Update, PacifiCorp (PC) respectfully submits these Reply Comments responding to the Public Comments filed by parties in this proceeding. Parties that submitted comments include: The Public Advocates Office (Cal Advocates); the California Department of Fish and Wildlife (CDFW); the Green Power Institute (GPI); and the Rural County Representatives of California (RCRC).

PacifiCorp appreciates the comments submitted by various stakeholders. The majority of comments are directed at recommendations for future iterations of PacifiCorp's Wildfire Mitigation Plan, not necessarily the 2022 WMP Update. Along those lines, PacifiCorp will consider the substantive recommendations made in these comments and may address such points in its 2023 Wildfire Mitigation Plan, which will be filed in accordance with any additional guidance from Energy Safety on future WMPs.

PacifiCorp resubmitted its WMP Update on July 15, 2022, as directed by Energy Safety, addressing the requirements of Energy Safety's June 15, 2022, order. No party has recommended that PacifiCorp's 2022 WMP Update not be approved. Accordingly, PacifiCorp's 2022 WMP Update should be approved.

Sincerely,

Shelley McCoy Director, Regulation

Shilling McCory
