Re: *Comments to Draft Guidance Advisory Opinion for the 2023 Wildfire Mitigation Plans of Electric Publicly Owned Utilities and Rural Electric Cooperatives*

To Wildfire Safety Advisory Board,

Silicon Valley Power (SVP) appreciates the comments provided in the draft Guidance Advisory Opinion for the 2023 Wildfire Mitigation Plans of Electric Publicly Owned Utilities and Rural Electric Cooperatives (Guidance Advisory Opinion). Below are some comments and responses to the draft Guidance Advisory Opinion:

- Please add “Silicon Valley Power” or “SVP” to the “POU” column in the table on page A3-58 (or page 97 of 110).
- SVP uploaded the final City Council adopted version of the 2022 Wildfire Mitigation Plan along with redlines and the final Independent Evaluator Report. There were no additional changes from the originally submitted draft submitted in August 2022.
- SVP’s Wildfire Mitigation Plan can be found on Silicon Valley Power’s website under “SVP AND COMMUNITY” > “SAFETY”. The Wildfire Mitigation Plan may also be found using the search box and entering the word “wildfire” or “wildfire mitigation plan”. Lastly, the direct URL for the Wildfire Mitigation Plan webpage is: <https://www.siliconvalleypower.com/svp-and-community/safety/wildfire-mitigation-plan>.
- SVP will consider the Wildfire Safety Advisory Board’s recommendations in its 2023 Wildfire Mitigation Plan.

If you have any questions regarding the plan, please contact Basil Wong who can be reached by email at [bwong@SantaClaraCA.gov](mailto:bwong@SantaClaraCA.gov).

Respectfully submitted,

Basil Wong  
Electric Division Manager
