**SUBJECT:**      Southern California Edison Company's Response to Notice of Violation  
                         - SCE ATJ 20220411-01 (Withdrawal of Request for Written Hearing)

Dear Koko Tomassian:

Southern California Edison Company (SCE) submitted a request for written hearing on August 22, 2022 for the following two findings in Notice of Violation - SCE ATJ 20220411-01: finding #1 related to anti-rotational clip issue, and finding #2 related to vibration damper six inch issue.

On October 24, 2022, the Office of Energy Infrastructure Safety (Energy Safety) removed these two findings and submitted a revised Notice of Violation. Accordingly, SCE requests to withdraw its written hearing request related to the two specific findings noted above. SCE appreciates Energy Safety's effort to identify, communicate, and work together to resolve potential wildfire risks.

If you have any questions, or require additional information, please contact Liz Leano at 626-302-3662 or Elizabeth.Leano@sce.com. SCE is looking forward to addressing findings as appropriate and clarifying the inspection process as Energy Safety expands the geographic scope of its inspection program in 2022.

Sincerely,

//s//  
Shinjini C Menon  
VP Asset Management & Wildfire Safety  
Southern California Edison
