

December 22, 2022

To: 2020 Annual Reports on Compliance for 2020 Wildfire
Mitigation Plans docket (#2020-ARC)

Subject: Extension of Deadline to File Reply Comments for Annual Report on Compliance For
SDG&E's 2020 Wildfire Mitigation Plan

Dear Wildfire Mitigation Plan Stakeholders,

On November 23, 2022, Energy Safety published a draft of the Annual Report on Compliance (ARC) which analyzed San Diego Gas & Electric's implementation of its 2020 Wildfire Mitigation Plan. At that time, Energy Safety opened the time for both stakeholders and SDG&E to comment on the ARC. The last day for submission of opening comments was December 13, 2022 and the deadline for reply comments was December 23, 2022.

Although SDG&E submitted comments on December 13, 2022, SDG&E contacted Energy Safety on December 20, 2022, and requested to amend those comments. Energy Safety has chosen to accept the amended comments and, for transparency purposes, has required SDG&E to submit a redline version of their opening comments. To ensure stakeholders receive the full opportunity to consider the amended comments, **Energy Safety hereby extends the deadline for reply comments to January 7, 2023.**

Sincerely,

A handwritten signature in black ink, appearing to read 'Koko Tomassian'.
