Subject: The Utility Reform Network (TURN) Request for Data Request Stakeholder Designation

Docket: 2023-2025 WMPs

Dear Director Thomas Jacobs,

The Utility Reform Network (TURN) requests Data Request Stakeholder Designation for the 2023 to 2025 Wildfire Mitigation Plan (WMP) docket (#2023-2025-WMPs), for data requests to all electrical corporations within the jurisdiction of the California Public Utilities Commission (CPUC).¹

TURN is a non-profit consumer advocacy organization with a long history of representing the interests of residential and small commercial customers of California's utility companies before the CPUC and, more recently, the Office of Energy Infrastructure Safety (Energy Safety). TURN has filed comments on various utility WMPs in recent years, including most recently on PG&E's 2022 Update. In its advocacy before Energy Safety and the CPUC, TURN seeks to ensure that utility wildfire mitigations are targeted to where they are most needed and consistent with a cost-effective use of ratepayer funds. Data requests are an important means by which TURN analyzes WMP submissions and supports its comments.

Accordingly, please designate TURN and its representatives as a Data Request Stakeholder in this docket, as follows:

¹ 2023-2025 Wildfire Mitigation Plan Process and Evaluation Guidelines, Dec. 6, 2022, Section 8.1.

The Utility Reform Network
785 Market Street, Suite 1400
San Francisco, CA 94103
