Dear Mr. Rojas

I am writing in response to the request for data revision. Bear Valley Electric Service (BVES) spatial data for its asset lines did not reflect the circuit miles of both primary and secondary lines. Wildfire Mitigation Data Tables 1-15 had a discrepancy with the listed circuit miles, since only the primary circuit miles were shown by BVES.

BVES shows below the records with revisions.

- Revised Wildfire Mitigation Data Tables
  - Table 1. Cells W30-W34, X30-X34, AA31-AA34, AB31-AB34  
W46-W49, X46-X49, AA47-AA49, AB47-AB49
  - Table 2. Cells W157, V159
  - Table 4. Cells F13-F14, G13-G14, H13-H14, I10-I11
  - Table 7. Cells I16, J16, K16, L16, I18, J18, K18, L18, I52, J52, K52, L52, I54, J54, K54, L54, Y16, Z16, AA16, Y18, Z18, AA18, Y52, Z52, AA52, Y54, Z54, AA54
  - Table 12. Cells G39-G43, H39-H43, J39-J43, K39-K43, L39-L43, G55-G59, H55-H59, J55-J59, K55-K59, L55-L59

Should there be questions or concerns on the submitted revisions I can be reached at (909) 649-1682 or by email at [Eduardo.Torres@bvesinc.com](mailto:Eduardo.Torres@bvesinc.com).

Sincerely,

/s/ Eduardo Torres
