**Subject: Revised 2023 Wildfire Mitigation Plan Schedule for the Small Multi-Jurisdictional Utilities and Independent Transmission Operators**

Dear Wildfire Mitigation Plan Stakeholders:

On December 7, 2022, the Office of Energy Infrastructure Safety (Energy Safety) published the 2023 Wildfire Mitigation Plan (WMP) Schedule.<sup>1</sup> This WMP schedule covered the completeness check and the evaluation of the electrical corporations' 2023-2025 Base WMPs.

Energy Safety has revised this WMP schedule specifically for the Small Multi-Jurisdictional Utilities and independent transmission operators (SMJUs and ITOs).<sup>2</sup> The SMJUs and ITOs will now submit their 2023-2025 WMPs on May 8, 2023, rather than April 17, 2023. Subsequent dates associated with the SMJUs/ITOs WMP schedule are adjusted accordingly. The date by which Energy Safety expects to issue draft Decisions on the SMJU/ITO WMPs is now the end of October 2023. There is no change to the WMP schedule for the large Investor-Owned Utilities.<sup>3</sup>

The revised schedule is presented in Attachment 1 to this letter with the date changes for the SMJU/ITO WMP Schedule shown in bold.<sup>4</sup>

Sincerely,

Lucy Morgans  
Program Manager, Electric Safety Policy Division  
Office of Energy Infrastructure Safety

<sup>2</sup> The SMJUs/ITOs are PacifiCorp, Liberty Utilities, Bear Valley Electrical Services Inc., Horizon West Transmission, Trans Bay Cable, and LS Power.

<sup>3</sup> The large Investor-Owned Utilities are Pacific Gas and Electric Company, Southern California Edison Company and San Diego Gas & Electric Company.

<sup>4</sup> This revised schedule is forward looking and does not include dates that occurred in the past.
