

San Diego Gas & Electric Company's  
Quarterly Data Report on WMP  
Spatial and Non-Spatial Data (QDR)

April 5, 2023

Pursuant to the California Public Utilities Commission (Commission or CPUC) Resolution WSD-011, and Wildfire Safety Division’s Compliance Operational Protocols, issued February 16, 2021, SDG&E hereby submits its revised Quarterly Data Report (QDR) for the period October 1, 2022 through December 31, 2022 (Q4). A copy of this report is being provided to the California Office of Energy Infrastructure Safety (OEIS) docket and the service list of Rulemaking (R.) 18-10-007.

Specifically, this QDR provides the following:

- Revised Tabular Wildfire Mitigation Tables 1-15 in the format provided by OEIS (“2023-02-01\_SDGE\_2022\_QDR Non-Spatial Data\_Rev\_1\_FINAL.xlsx”)

As directed by OEIS, SDG&E is submitting its revised QDR via SharePoint.<sup>1</sup> Revisions to this report include corrections to SDG&E’s non-spatial tables. Several of the tables have been amended to provide updated page numbers associated with each initiative noted in the Wildfire Mitigation Plan (WMP), which was submitted after this quarters report. Additionally, SDG&E has included some non-substantive changes to correct rounding errors. Revisions to Wildfire Mitigation Tables 1-15 include the following and are indicated in red in the submission:

Report	Description and Explanation	Related Change Order	Table name // Cell reference
QNL	Approved change order for Generator Grant Program reducing target to 700 generators <sup>2</sup>	OEIS approved on February 9, 2023	QNL Report//Slide 4
WM Tables	Approved change order for Generator Grant Program reducing target to 700 generators	OEIS approved on February 9, 2023	Table 1// Row 20// Column T V W X //
WM Tables	Revised actual count of wireless fault indicators installed. Number of structures was previously counted instead of number of actual fault indicators installed.		Table 1//AB7
WM Tables	Added WMP Page Numbers per final 2023 WMP		Table 1/ Column P
WM Tables	Revised Open Work Order count to align with Table 13 work orders		Table 2 / Row 624//Column W
WM Tables	Revised Past Due Work order count. Past due work orders were erroneously calculated in previous submission. SDG&E had no past due work orders as of 12/31/2022.		Table 2//Row 625//Column W
WM Tables	Populated transmission drone inspections. These inspections were inadvertently excluded in previous submission.		Table 2 // Row 225, 228, 240, 243, 255, 258
