Regarding Inspection Find Rates

QUESTION 003

- a. Provide PG&E’s work order find rate for distribution detailed and patrol inspections respectively, broken down by quarter from 2018 to 2022.

ANSWER 003

Please find PG&E’s find rate for distribution overhead (OH) detailed and patrol inspections in the tables below. Please note that inspections are not evenly distributed by quarter, so PG&E has also provided the annual find rate for each inspection type.

PG&E provides a few notes about the data below:

- Find rates are counted by unique notifications, so in some cases more than one notification is present for a single structure.
- Find rates for 2019 include only findings from PG&E’s WSIP inspections, not GO-165 inspections.
- Find rates for 2020-2022 for overhead inspections utilize a slightly different set of filters compared to PG&E’s QDR reporting. These find rates exclude findings that were made through PG&E’s Inspect app but were not part of the inspections program or vice versa. Based on the specific year, this data may also exclude any findings that were made before the first day of inspections each year. We are currently standardizing our find rate reporting for future QDR submissions and data requests by creating a formal Job Aid for this process. We will also create a single source of data for inspections and findings.
