

June 8, 2023

To: Wildfire Mitigation Plans Service List

Subject: Revised 2023 Wildfire Mitigation Plan Schedule

Dear Wildfire Mitigation Plan Stakeholders:

On December 7, 2022, the Office of Energy Infrastructure Safety (Energy Safety) published the 2023 Wildfire Mitigation Plan (WMP) schedule.¹ On March 21, 2023, Energy Safety published an extension to the Small Multi-Jurisdictional Utilities and Independent Transmission Operators (SMJUs and ITOs) WMP schedules.²

Energy Safety is making significant progress in evaluating the 2023-2025 WMPs. However, as explained in our letter dated December 7, 2022, the electrical corporations were required to submit more detailed information this year since it is the first year of the three-year WMP cycle. Energy Safety requires additional time to evaluate the large amount of information submitted.

Energy Safety is hereby extending the 2023 WMP schedule, as shown in Attachment 1. This includes a delay to the SMJU public workshop,³ to the publication dates for the Large Investor-Owned Utilities (IOUs) Revision Notices (where necessary) and draft Decisions, and to the publication dates for the SMJU and ITO Revision Notices (where necessary) and draft Decisions.

The revised schedule is presented in Attachment 1 to this letter with the date changes shown in bold.

Sincerely,

Lucy C. Morgans

Lucy Morgans
Program Manager, Electric Safety Policy Division
Office of Energy Infrastructure Safety
