

Southern California Edison Company's Application for Confidential Designation
Pursuant to California Code of Regulations § 29200

I, Raymond Fugere, declare and state:

1. I am the Director of Wildfire Safety at Southern California Edison Company (SCE). As such, I am responsible for overseeing and reviewing SCE's confidential materials in connection with SCE's 2023-2025 Wildfire Mitigation Plan and related Data Requests submitted to the Office of Energy Infrastructure Safety (OEIS). I am authorized to request confidential treatment via this application on behalf of SCE.

2. I am making this declaration pursuant to California Code of Regulations Title 14, Division 17, Chapter 1, Article 1, § 29200 and in accordance with the confidentiality bases set forth and applicable California Public Utilities Commission's precedent that govern the submission of confidential documents. SCE discloses this information pursuant to these bases as confidential materials and has not disclosed the information publicly.

3. The data covered by these confidentiality bases as described in the following paragraph is not customarily in the public domain.

4. A redacted copy of the record is not included because the confidential material is a spatial data file that can only be viewed using GIS software.

5. The information has critical infrastructure information and/or critical electric infrastructure information and discusses vulnerabilities of a facility providing critical energy infrastructure. The release of the precise location, age, and other attributes of SCE's assets alongside the precise location of critical facilities may significantly increase safety risk to the public.

6. The data should be kept confidential indefinitely.

7. Listed below are the data for which SCE is seeking confidential protection and the basis for SCE's confidentiality request.
