Date of Violations: October 22, 2022

Dear City and County of San Francisco Heat/Power/Light Department:

You are receiving this Notice of Probable Violation (Notice) as a result of an investigation conducted pursuant to Government Code sections 4216 *et seq.* The California Underground Safety Board (Board) investigator has concluded an investigation of an incident on October 22, 2022, at the Intersection of 16<sup>th</sup> Street and Potrero Avenue San Francisco, California 94110, and found the following violations of Government Code section 4216.3(c)(1)(A) and California Code of Regulations, title 19, sections 4003(a), and 4151(c):

**Government Code § 4216.3(c)(1)(A):** Failure to provide electronic positive response before the legal start date and time.

**Cal. Code Regs., title 19, § 4151(c):** Refusal to cooperate with the investigation.

**Cal. Code Regs., title 19, § 4003(a):** Failure to maintain current contact information with the regional notification center.

The Phoenix Electric Company requested ticket X228404711-00X on October 11, 2022, with a legal start time of October 13, 2022, at 5:01 p.m. The City and County of San Francisco Heat/Power/Light Department did not provide an electronic positive response to ticket X228404711-00X.

The City and County of San Francisco Heat/Power/Light Department failed to respond to two information request letters requesting information regarding ownership of an unmarked facility. The Board Investigator sent the first letter on November 28, 2022, and the second letter was sent December 14, 2022. The City and County of San Francisco Heat/Power/Light Department failed to maintain current contact information with the regional notification center. On February 7, 2023, the Board mailed the Notice to the City and County of San Francisco Heat/Power/Light Department at the address on file at the regional notification center. On February 15, 2023, the Board received the Notice postmarked a as return to sender.

### **Hearing and Referral to Enforcement Agency**

During the Board's public meeting on **July 10, 2023, at 1:00 p.m.**, the Board will determine whether the violations occurred and whether the penalties proposed in this Notice are appropriate. You may contest the violations and proposed penalties noted in the below section at this meeting. The location of the meeting will be in Sacramento.

Warren Alquist State Energy Building  
Rosenfeld Hearing Room  
1516 9th Street  
Sacramento, CA 95814

Should the Board determine that a probable violation exists, the Board will refer your case with either the proposed penalty below or a new recommended penalty to the appropriate state or local agency for enforcement pursuant to Government Code section 4216.6(c) (Enforcement Agency). The Board's recommendation to the Enforcement Agency will include its finding of the probable violations and any recommended penalties. The Board's recommendation does not constitute a final determination of your case. The Enforcement Agency has discretion to accept, amend, or reject the Board's recommendation, in whole or in part, through its own investigations pursuant to Government Code section 4216.6(c).

The Enforcement Agency for this case is:  
City and County of San Francisco Board of Supervisors  
1 Drive Carlton B. Goodlett Place, City Hall, Room 244  
San Francisco, California 94102

### **Proposed Penalty**

Any penalties provided in this Notice, including corrective actions, are only proposals by Board staff and do not require any corrective action or payment at this time. Your Enforcement Agency will provide the final determination to and instructions for any penalty.

Pursuant to Government Code § 4216.6, violation of Government Code § 4216 *et seq.* by an operator or excavator may be subject to a maximum penalty of \$10,000 for negligent violation, or \$50,000 for knowing and willful violation. Knowing and willful violation of Article 2 that results

in damage to a gas or hazardous liquid pipeline subsurface installation and that results in the escape of any flammable, toxic, or corrosive gas or liquid may be subject to a maximum penalty of \$100,000.

The Board Staff are recommending the below corrective action and penalties:

**Mandatory completion of the Underground Safety Board's education course. Please see <https://energysafety.ca.gov/what-we-do/underground-safety-board/education-course/> for more information.**

**A financial penalty, the amount to be determined by the Board.**

The proposed penalties are merited, as the City and County of San Francisco Heat/Power/Light Department did not provide an electronic positive response and failed to cooperate with the investigation. While the violations did not cause substantial injury, environment, or property damage, and while the respondent does not have a history of violations as determined through Board action, a financial penalty is warranted as the City and County of San Francisco Heat/Power/Light Department failed to maintain current contact information and cooperate with the investigation, including by failing to confirm or deny ownership of the unmarked facility.
