**Cc:** [REDACTED]  
**Subject:** EVM Training change

Classification: Internal

Team:

Due to the end of the Enhanced Vegetation Management (EVM) Program by year's end, PG&E has eliminated the program's mandatory trainings and evaluations. The **VEGM-0410 EVM Scope Training** and **VEGM-0450 EVM Field Evaluation** have been removed from PG&E's Academy because anyone working on EVM for the remainder of 2022 has already completed mandatory trainings. More information on EVM and any future training requirements will be shared as available.

The training team would like to send a big thank you to everyone who has helped support EVM trainings and evaluations. For more than a year, the VEG-450 Evaluation team successfully hosted weekly VEGM-0410 EVM Scope Trainings. Additionally, the TRC contract team worked tirelessly to manage the behind-the-scenes operations and day-of administration, with [REDACTED] and [REDACTED] on-site providing local support and guidance.

Please let us know if you have any questions.

Thank you, and have a safe day!  
VM Training Team
