To: Wildfire Mitigation Plans Service List

**Subject: Revised 2023 PG&E Wildfire Mitigation Plan (WMP) Draft Decision Schedule**

Dear Wildfire Mitigation Plan Stakeholders:

Pacific Gas and Electric Company (PG&E) timely submitted its 2023-2025 Wildfire Mitigation Plan (2023 Base Plan)<sup>1</sup> on March 27, 2023. Energy Safety issued a Revision Notice to PG&E on June 22, 2023.<sup>2</sup> In the Revision Notice, Energy Safety indicated it would issue the draft decision on PG&E's revised 2023 Base Plan (Draft Decision) on September 29, 2023. PG&E submitted its Revision Notice Response on August 7, 2023.

Energy Safety is making progress in evaluating the 2023-2025 WMPs. However, as explained in its letter dated December 7, 2022,<sup>3</sup> the electrical corporations were required to submit more detailed information this year since it is the first year of the three-year WMP cycle. Energy Safety anticipates additional time to evaluate the large amount of information submitted and the additional information contained within PG&E's Revision Notice.

Energy Safety finds that an extension of the previously indicated date of issuance of the Draft Decision is necessary to complete its evaluation, and hereby extends its previously indicated date for publishing the Draft Decision to no later than October 16, 2023.

Sincerely,

*Lucy C. Morgans*

Lucy Morgans  
Program Manager, Electric Safety Policy Division  
Office of Energy Infrastructure Safety
