

To whom it may concern,

I Christopher Booker have contacted so Cal gas to set up a safety meeting with them, we also sent in an email to the underground safety board to set up an education course for myself and all of our employees so they know the importance of doing a UAS ticket on all jobs, we are doing all the steps to make sure this doesn't happen again, this would be our first time missing a Dig ticket due to customer. not willing to wait longer than he wanted, and for now on this will not happen anymore we will tell the customer we must have a USA before the job can start and if they don't want to wait that long we will. send them somewhere else so we can follow the safety rules and not have another incident.

Attached are our USA tickets we have done in the past and the email showing we are doing our part and trying to get meetings set up so my crew and I know the importance of it all.

Please forgive our mistake as this will NEVER happen again! As to we don't have any prior violations.

Thank you

EDUCATION COURSE SCHEDULING REQUEST RELIANCE FENCE COMPANY CAS-01555-W6J5P1

Ticket information, facility maps, electronic locate manifests and any associated aerial images ("Materials") provided to the excavator via "Enhanced Positive Response" (EPR) are for internal excavator planning and communication purposes only and are not authorized to be redistributed to any third party. The Materials are distributed and transmitted on an "as

Additional Information

Log in to One Call Access and click Positive Response on the menu to view responses from member facility operators and confirm that all operators have responded before you begin digging. <https://onecallca.undergroundservicealert.org>.

Be sure the work location is accessible to facility owners/operators and their contract locators.

- Review your ticket details and utility members notified. If you notice anything that is in error or incorrect, please login to your One Call Access account and amend or create a new ticket to include the correct and accurate information. It is your responsibility to provide clear and accurate information on every ticket
- Do not proceed with your work until the legal start date/response due date has passed and ALL facility owners/operators have responded.
- When working within 24" tolerance zone of any facility marking, you are required by state law to hand dig and expose and protect the facility.
- If you make contact with a line even scrapes, nicks, dents or other contact, you are required to report it to 811 and the facility operator immediately.
- If you would like free training regarding the 811 process and state excavation laws, please visit www.811pro.com.
- If you need assistance, please contact us visiting www.undergroundservicealert.org, or information@usanorth811.org.
