

LS Power Grid California
Quarterly Data Report on WMP
Spatial and Non-Spatial Data (QDR)

April 4, 2024

Pursuant to the California Public Utilities Commission (Commission or CPUC) Resolution WSD-011, Wildfire Safety Division’s Compliance Operational Protocols, issued February 16, 2021, and in accordance with Office of Energy Infrastructure Safety’s (Energy Safety) updated guidance recently published January 30, 2024 (V3.2). LSPGC hereby submits its Quarterly Data Report (QDR) revision one for the period October 1, 2023 through December 31, 2023 (Q4 2023). A copy of this report is being provided to the California Office of Energy Infrastructure Safety (OEIS) docket.

Specifically, this Submission provides the following updates to LSPGC’s previously submitted 2023 Q4 QDR:

[LSPGC’s Quarterly Data Report: Non-Spatial Tables 1 - 15](#)

Discrepancies were discovered within table 11. This revision is to update the various spreadsheet rows below to better represent LSPGCs cost allocations for WMP initiatives:

Excel Sheet	Cells Updated	Explanation
Table 11	Title headers updated to include 2023 under the Actual Banner	Reporting period for 2023 is over so the costs will be actual not projected
Table 11	Row 12	Updated to include numbers from the table 11 supplemental
Table 11	Consolidated row 15 into row 13	Grouped the costs together as they will be tracked that way
Table 11	Row 16	Updated to better represent expected costs
Table 11	Rows 31, 32, and 33	Minimal/no expected costs in 2023/2024 and increased 2025 costs
Table 11	Row 45	Updated to better represent expected costs
Table 11	Row 47	Shifted expected costs to 2025 to better reflect our expectations
Table 11	Row 60	Updated to include 2023 actual data and to modify expected HFTD costs
