## **NOTICE OF PROBABLE VIOLATION**

ARM Construction  
5338 Rose Avenue  
Riverside, California 92505  
[REDACTED]

**Case No.:** 23NTS00002

**Location of the Violations:** 881 South Orange Avenue in Rialto, California 92376

**Date of Violations:** July 10, 2023

**Dear ARM Construction:**

You are receiving this Notice of Probable Violation (Notice) as a result of an investigation conducted pursuant to Government Code section 4216 *et seq.* The California Underground Safety Board (Board) investigator has concluded an investigation of an incident on July 10, 2023, at 881 South Orange Avenue in Rialto, California 92376, and found the following violations of Government Code sections 4216.2(b), 4216.2(b), and 4216.4(c)(2):

Government Code § 4216.2(b): Excavating without a valid ticket.

Government Code § 4216.2(b): Failure to wait 48 hours before commencing excavation after obtaining a regional notification center ticket.

Government Code § 4216.4(c)(2): Failure to contact 911 emergency services after causing damage to gas facility.

On July 10, 2023, ARM Construction excavated without first contacting the regional notification center and, with a shovel, damaged a half-inch natural gas plastic service line operated by the Southern California Gas Company. After damaging the line, ARM Construction contacted the regional notification center and the Southern California Gas Company but did not call 911.

After reporting the damage to the regional notification center, ARM Construction began excavating again before the legal excavation start date and time. The evidence establishing these facts is attached to the enclosed report of investigations.

### **Hearing and Referral to Enforcement Agency**

During the Board's public meeting on **July 8, 2024, at 1:00 p.m.**, and the Board will determine whether the violations occurred and whether the penalties proposed in this Notice is appropriate. Warren Alquist State Energy Building  
Rosenfeld Hearing Room  
1516 9<sup>th</sup> Street  
Sacramento, California 95814

Should the Board determine that a probable violation exists, the Board will refer your case with either the proposed penalties below or new recommended penalties to the appropriate state or local agency for enforcement pursuant to Government Code section 4216.6(c) (Enforcement Agency). The Board's recommendation to the Enforcement Agency will include its finding of probable violation and recommended penalties. The Board's recommendation does not constitute a final determination of your case. The Enforcement Agency has discretion to accept, amend, or reject the Board's recommendation, in whole or in part, through its own investigations pursuant to Government Code section 4216.6(c).

The Enforcement Agency for this case is:  
Contractors State License Board  
9821 Business Park Drive  
Sacramento, California 95827

### **Proposed Penalty**

Any penalties provided in this Notice, including corrective actions, are only proposals by Board investigator(s) and do not require any corrective action or payment at this time. Your Enforcement Agency will provide the final determination to and instructions for any penalty.

Pursuant to Government Code section 4216.6, violation of Government Code section 4216 *et seq.* by an operator or excavator may be subject to a maximum penalty of \$10,000 for negligent violation, or \$50,000 for knowing and willful violation. Knowing and willful violation of Article 2 that results in damage to a gas or hazardous liquid pipeline subsurface installation and that results in the escape of any flammable, toxic, or corrosive gas or liquid may be subject to a maximum penalty of \$100,000.

The Board Staff are recommending the below corrective action and penalties:

Mandatory completion of the Board's education course. Please see <https://energysafety.ca.gov/what-we-do/underground-safety-board/education-course/> for more information.

**A financial penalty, the amount to be determined by the Board.**

The proposed penalties are merited, as ARM Construction excavated without a valid ticket, did not contact 911 following the damage to the gas facility. ARM Construction obtained a new ticket from the regional notification center but began excavating before the legal excavation start date and time of the new ticket obtained.
