

**Approved**  
**Utility Board**  
**06/24/2024**

INFORMATION ITEM

**G-1**

TO: HONORABLE CHAIRPERSON AND MEMBERS OF THE AZUSA UTILITY BOARD  
FROM: TIKAN SINGH, GENERAL MANAGER  
DATE: JUNE 24, 2024  
SUBJECT: CITY OF AZUSA WILDFIRE MITIGATION PLAN (“WMP”) DATED JUNE 19, 2023

**BACKGROUND:**

California Public Utilities Commission Senate Bill (“SB”) 901 Section 8387 (b) (3) requires all electric utilities operating in California to present their wildfire mitigation plans (“WMP”) at a public meeting annually to provide an opportunity for public and Board comments on their WMPs. In addition, Section 8387 of SB 901 also requires that the utilities update their WMP annually and perform a comprehensive revision of the WMP every three years. Azusa completed a comprehensive update of its WMP in June of 2023. Staff is not making any changes or updates to its WMP this year. Azusa will resubmit it to the California Wildfire Safety Advisory Board (“WSAB”) as is. The proposed action would receive and file this Azusa Wildfire Mitigation Plan dated June 19, 2023.

**RECOMMENDATION:**

Staff recommends the Utility Board take the following actions:

- 1) Receive and file the revised City of Azusa Wildfire Mitigation Plan dated June 19, 2023

**ANALYSIS:**

In the year 2023, the year 2023, the City of Azusa Light & Water (“ALW”) Department performed a comprehensive revision of its Wildfire Mitigation Plan (“WMP”) as required by SB 901 Section 8387. ALW engaged Dudek Inc. to independently evaluate its revised WMP to meet the statutory requirements of SB 901. On June 19, 2023, the City of Azusa adopted the comprehensive revision of its WMP during its regular City Council meeting (Scheduled Item D-3). This year Azusa is not making any changes or updates to its WMP. Staff will resubmit its current WMP to the California Wildfire Safety and Advisory Board (“WSAB”) as required.

**FISCAL IMPACT:**

There is no fiscal impact associated with resubmitting the City of Azusa Wildfire Mitigation Plan to WSAB.
