Re: Liberty Extension Request for Comments on the Office of Energy Infrastructure Safety's Annual Report on Compliance Regarding Liberty's Execution of its 2021 Wildfire Mitigation Plan

Dear Mr. Doherty:

Liberty requests a two-week extension to the deadline for its comments on the Office of Energy Infrastructure Safety's (Energy Safety) Annual Report on Compliance ("ARC") regarding Liberty's execution of its 2021 Wildfire Mitigation Plan ("WMP") released on June 21, 2024. In its ARC, Energy Safety states that Liberty may file a public response within 14 calendar days of the date of publication. This deadline falls on Friday, July 5, 2024, which is a holiday weekend for many Liberty employees. Additionally, Liberty's 2025 WMP Update is due on July 8, 2024, which involves the same internal resources that are required for preparing comments on the 2021 ARC. It will be challenging for Liberty to review Energy Safety's 2021 ARC and provide meaningful comments in the timeframe allotted, given the other impending WMP deadlines and the holiday schedule.

Liberty appreciates Energy Safety's consideration of Liberty's request for a two-week extension to the deadline for its comments on Energy Safety's ARC regarding Liberty's 2021 WMP.

Respectfully submitted,
