

OEIS Data Request 5.1

Regarding completion date for VM-11-associated objectives: In its 2025 WMP Update, PacifiCorp updated the completion date for two objectives associated with VM-11, “Create SME process & procedure for VM database review four times a year” and “Develop audits to provide understanding of the data collection process,” from December 2024 to “Deferred due to GeoDigital database upgrade.” In its response to Energy Safety’s Data Request, PacifiCorp stated the completion date for these two objectives is now Q4 2025. PacifiCorp provided one other objective associated with VM-11 that refers to the database: “Create QA/QC process and procedure for benchmarking data in the database and inspections”.

Clarify whether the completion date for this objective, as presented in Table 8-13 “Vegetation Management Implementation Objectives (3-year plan)” of PacifiCorp’s 2023-2025 Base WMP, remains unchanged.

- i. If the completion date remains unchanged, provide an explanation as to why the GeoDigital database upgrade does not impact the completion date of this objective.
- ii. If the completion date requires updating:
 1. Provide a new completion date for this objective.
 2. Provide an explanation of how the GeoDigital database upgrade changes the completion date of this objective.

Response to OEIS Data Request 5.1

- i. At this time, PacifiCorp does not anticipate changing the target date associated with the Vegetation Management Initiative VM-11 objective. PacifiCorp anticipates that the GeoDigital project will be complete by Q4 2025, allowing for further review and benchmarking with other utilities regarding data collected during inspection.
- ii. Please refer to the Company’s responses to subparts 1. and 2. below:
 1. Not Applicable. Please refer to the Company’s response to subpart (i) above.
 2. Not Applicable. Please refer to the Company’s response to subpart (i) above.

OEIS Data Request 5.2

Regarding absence of HFRA designation for WP-02 in initiative prioritization table:
In the table on pages 137-141 of PacifiCorp's redlined 2023-2025 Base WMP, the HFRA column is blank for initiative WP-02. Why is the HFRA column blank for initiative WP-02?

- i. For example, are the activities associated with WP-02 outside the scope of PacifiCorp's HFRA?

Response to OEIS Data Request 5.2

The high fire risk areas (HFRA) column for initiative WP-02 was inadvertently left blank and should have been checked. Identification and evaluation of mitigation initiatives is occurring for work in the HFRA.

OEIS Data Request 5.3

Regarding absence of HFRA designation for VM-11 in initiative prioritization table: In the table on pages 137-141 of PacifiCorp's redlined 2023-2025 Base WMP, the HFRA column is blank for initiative VM-11. Why is the HFRA column blank for initiative VM-11?

- i. For example, are the activities associated with VM-11 outside the scope of PacifiCorp's HFRA?

Response to OEIS Data Request 5.3

The high fire risk areas (HFRA) column for Vegetation Management initiative VM-11 was inadvertently left blank and should have been checked. Vegetation management quality assurance (QA) and quality control (QC) are occurring in the HFRA.
