SUBJECT: Southern California Edison’s Notification of Completion of Substantial Vegetation Management in accordance with California Public Utilities Code Section 8386.3.(c)(5)(A) for VM-1: Hazard Tree Management Program (HTMP), VM-2: Structure Brushing, and VM-8: Detailed Inspections for the Prescription, Where Necessary and Feasible of Expanded Vegetation Clearances from Transmission Lines in HFRA as of August 31, 2024

Dear Director Thomas Jacobs,

In accordance with California Public Utilities Code Section 8386.3(c)(5)(A), Southern California Edison Company is providing notification to the Office of Energy Infrastructure Safety that it has completed a substantial portion of three of its 2024 Wildfire Mitigation Plan vegetation management initiatives as of August 31, 2024, as shown in the table below.

2024 WMP Initiative	YTD Completion Volume (as of 8/31/24)
<u>VM-1: Hazard Tree Management Program</u> Inspect 408 grids/circuits and prescribe mitigation for hazardous trees with strike potential within those grids in SCE’s HFRA.	334
<u>VM-2: Structure Brushing</u> Inspect and clear (where clearance is needed) 63,700 structures with the exception of structures for which there are customer access or environmental constraints.	64,642
VM-8: Detailed Inspections for the Prescription, Where Necessary and Feasible of Expanded Vegetation Clearances from Transmission Lines in HFRA SCE plans to inspect 416 grids within our transmission system	361
