Liberty 2025 WMP Update Discovery Log Question Responses Regarding Liberty's Substation Defensible Space Target (WMP-VM-VFM-03): a. 12 substations. ble 3-2 of its 2025 WMP Update, Liberty provided a "2025 Update Target" of 12 substations for Substation Defensible Space (WMP-VM-VFM-03).1 b. Liberty intends to perform two site visits per substation to perform vegetation treated by the second state of the second s 2025 Update under Section 3.2.15 "WMP-VM-VFM-03: Substation Defensible Space," Liberty stated that "[t]he 2025 target for substation c. Liberty performs the same maintenance described in its WMP during both site visits nsible space did not change. Liberty does not establish targets for its VM substation defensible space WMP initiative."2 Liberty's revised 2023-2025 d. The first treatment is planned to occur between June 1st and September 30th and 1 P, submitted with the 2025 WMP Update, does not provide a target for this initiative in Table 8-17 "Liberty Vegetation Management Initiative second treatment is planned to occur between October 1 and December 31st. ets by Year" or in its narrative description of the Substation Defensible Space initiative beyond the statement that there will be a "minimum of two |e. Two treatments are intended to manage vegetation regrowth and debris accumula effectively during Spring, Summer and Fall months. If vegetation re-growth or debris visits" annually per facility. hat is Liberty's 2025 target for substation defensible space? Provide both the number and the unit. accumulation occurs inside substation footprints or perimeters between planned rding Liberty's new QA assessment component of Liberty's Vegetation Management QA/QC program: section on page 1 and 2. Refer to supporting materials: DR002 – Question 1a and 1b. ovide Liberty's definition of quality assurance (QA) and how it differs from quality control (QC). ovide the current version of Liberty's Post Work Verification Procedure (VM-04) including any updates related to the introduction of the new b. Refer to supporting materials: DR002 – Question 1a and 1b. c. Refer to supporting materials: DR002 – Question 1c_1, DR002 - Question 1c_2, and ty assurance (QA) assessment component of its Vegetation Management QA/QC program. scribe Liberty's new QA assessment sampling plan and provide any associated standard operating procedures. Question 1c 3. vide a summary of the findings from the new QA assessment to date. d. Refer to supporting materials: DR002 – Question 1d. erty's response to area for continued improvement LU-23-18 "Weather Station Optimization" Liberty indicated it has "engaged Eagle Rock a. Liberty expects to receive the final analysis from Eagle Rock Analytics by the end of ytics to perform a weather station optimization analysis for its system to evaluate how well the network captures the diversity of climate b. Yes, Liberty will provide the final analysis in its next WMP submission or in response litions within Liberty's territory."1 stakeholder request. hen does Liberty expect to receive the final analysis from Eagle Rock Analytics? I Liberty make this final analysis available to the public? the cost categories listed in Liberty's 2025 WMP Update (i.e., project permitting, community outreach, communications, and various vegetation 2. Yes, the cost categories associated with WMP-VM-ESG-01 were included in the pro agement program development activities, as listed in Section 2.2.19.3) included in the projected expenditures in its 2023-2025 Base WMP?2 expenditures in Liberty's 2023-2025 Base WMP. they were not included, please describe how and why cost assumptions and expenditure categories (as listed in Section 2.2.19.3) have changed [a. N/A. een its 2023-2025 Base WMP and its 2025 WMP Update. b. The cost assumptions regarding tracking and recording these categories have change they were included, please describe how cost assumptions for the categories listed in Section 2.2.19.3 have changed since the approval of Liberty's capture all of the costs of project permitting within a single initiative. Previously some -2025 Base WMP on February 5, 2024. cost categories, mostly project permitting, were recorded as part of the costs of asso initiatives. For example, project permitting costs associated with fall-in mitigation wo projected and recorded within Liberty's fall-in mitigation WMP initiative. As of the 202 Update, Liberty will project and track all of the cost categories listed in WMP-VM-ESG within that initiative. ase provide Liberty's current distribution detailed inspection checklist, referenced on page 42 of Liberty's 2025 WMP Update R1. a. See below for Liberty's current distribution detailed inspection checklist: Condition codes for failed inspections: Bare Equipment Jumpers Clearance Climbing Space Crossarm Braces Falling Off Crossarm Broken / Split / Loose Crossarm Needs Replacing Equipment Anchors Foreign Objects on Poles ts 2025 WMP Update R1, Liberty lists a target change for initiative "WMP-GDOM-AI-05: Quality assurance / quality control of inspections," asing from a 2025 Original Target of 3 percent to a 2025 Updated Target of 12 percent. However, in both Liberty's approved 2023-2025 Base WMP i. Liberty confirms that it incorrectly listed 3 percent (instead of 12 percent) as the "20 Original Target" in its 2025 WMP Update. ts revised 2023-2025 Base WMP R6, the "Target 2025 & Unit" is listed as 12 percent for this initiative. ase confirm whether Liberty incorrectly listed 3 percent (instead of 12 percent) as the "2025 Original Target" in its 2025 WMP Update. 1. Liberty confirms that there is no 2025 target change associated with initiative "WMF so, please confirm that there is there no 2025 target change associated with initiative "WMP-GDOM-AI-05: Quality assurance/quality control of GDOM-AI-05: Quality assurance/quality control of inspections." ections." ty states on p. 140 of its 2023-2025 Redline Redacted WMP, "Using the outputs from CloudFire, Liberty has identified circuits ordered by the most |Liberty was previously utilizing the risk score outputs from Reax and Arup to quantify and targeted the circuits with the high risk." risk circuits. Since Liberty is beginning to use the Direxyon Risk Assessment Tool ("DRA he circuits that have been identified by Liberty's CloudFire application, please provide an Excel document that lists the top 20 circuits ordered by identify risk, the requested information has been provided in relationship to the Prelin The spreadsheet should include the following information in separate columns, at a minimum: a) Risk ranking of the circuit segment Risk Score outputs from DRAT described in Section 6.4 of Liberty's Updated 2023-202 a) Refer to Section 6 of Liberty's Updated 2023-2025 WMP. rcuit ID number ame of circuit, if applicable b) Refer to Section 6 of Liberty's Updated 2023-2025 WMP. umber of customers served by the circuit c) Refer to Section 6 of Liberty's Updated 2023-2025 WMP. easure taken, or planned to be taken, to reduce the wildfire risk of the circuit d) Refer to supporting materials: DR01-Question 1 a) Liberty PSPS Risk Model is currently in development. avaatad as actual start data of the mitigation project referenced in vour reconcers to part (a) of ty states on p. 24 of its 2025 WMP Update, in response to Area of Continued Improvement LU-23-02: PSPS and Wildfire Risk Tradeoff sparency, "Liberty does not currently calculate trade-offs between wildfire risk and PSPS risk. Liberty prioritizes mitigation initiatives based on b) Liberty PSPS Risk Model is currently in development. ire risk and asset failure risk." a)What variables, if any does Liberty utilize to calculate PSPS risk? c) Refer to Section 6.2 of Liberty's Updated 2023-2025 WMP ase provide a brief description of Liberty's process and calculations used in calculating PSPS risk. d) Refer to Section 6.2 of Liberty's Updated 2023-2025 WMP nat variables, if any does Liberty utilize to calculate wildfire risk? e) Liberty does not view prioritizing mitigation initiatives as a substitute for calculatir tradeoffs between PSPS and Wildfire Risk. Liberty's PSPS Risk Model is currently in ase provide a brief description of Liberty's process and calculations used in calculating wildfire risk. es Liberty view prioritizing mitigation initiatives (based on wildfire risk and asset failure risk) as a substitute for calculating tradeoffs between PSPS | development, so there is not a tradeoff between PSPS Risk and Wildfire Risk to evalu Wildfire Risk? Please explain why or why not. f) Liberty has not identified disadvantages of calculating PSPS and Wildfire Risk trade g) Liberty is evaluating its ability to calculate PSPS Risk following the implementation ording to Liberty, what are the disadvantages of calculating PSPS and Wildfire Risk tradeoffs? es Liberty intend to be able to calculate PSPS and Wildfire Risk Tradeoffs in the future? If yes, when? Asset and Fire Risk tool. Following the integration of Liberty's PSPS Risk with its Asset at door I iborty pood in order to be able to calculate tradeoffe between wildfire rick and DCDC rick? Dick I iborty will be able to avaluate its intention to calculate a tradeoff between DCF :y states on p. 28 of its 2025 WMP Update, in response to Area of Continued Improvement LU-23-06: Effectiveness of Sensitive Relay Profile (SRP) a) Liberty plans to enhance the Direxyon Risk Assessment Tool to quantify risk of adc raditional Hardening: SRP has not been implemented on the system or included in the risk model to allow for calculations on its effectiveness. In asset types with SRP being in the initial list of enhancements. Liberty expects to be co ting SRP for its ignition reduction effectiveness, Liberty relied on data from other utilities that have been using it as a mitigation strategy. with the additional enhancements by the end of Quarter 3 2025. ease describe or provide a timeline of when Liberty will have the necessary data to show the effectiveness of SRP implementation as a mitigation b) See Response 3a. ease describe or provide a timeline of when Liberty will incorporate SRP into the Direxyon Risk Assessment Tool (DRAT). 32-33 of its 2025 WMP Update, Liberty provides its response to Area of Continued Improvement LU-23-09: Covered Conductor Inspections and Liberty does not have a previous version. enance. e provide the previous version of the Spacer Cable Inspection Checklist found in Appendix A of the WMP Update, prior to the recent updates. ty forecasts significantly increased 2025 updated expenditures for: a) Refer to supporting materials: DR01 – Question 5 ergrounding of electric lines and/or equipment (WMP-GDOM-GH-02) b) Refer to supporting materials: DR01 – Question 5 c) Liberty rescoped the Rule 20 Tahoe Vista project in 2023. Based on RFPs conducted e-attachment removal (WMP-GDOM-GH-12a) iled inspections of distribution electric lines and equipment (WMP-GDOM-AI-01) 2023, civil contractor costs increased significantly. The original scope also included rol inspections of distribution electric lines and equipment (WMP-GDOM-AI-03) directional boring, which resulted in higher than expected costs and subsequently was removed from the project scope, resulting in decreased mileage. station inspections (WMP-GDOM-AI-06) a) For d) WMP-GDOM-GH-12a actual spend (\$ thousands): monitoring systems (WMP-SA-02) of the initiatives listed above, please explain the reasoning behind the 2025 updated expenditure forecast. 20 - \$1,358 y states on p. 35 of its 2025 WMP Update, in response to Area of Continued Improvement LU-23-11: Quality Assurance/Quality Conrtol (QA/QC) |a) Liberty describes its WMP QA/QC process for asset inspections in Section 8.16 of it ble size and pass rates: "Liberty has established an asset inspection QA/QC target of 90% for 2024 and 2025." a) Please describe the Updated 2023-2025 WMP. C audit process for asset inspections. b) Refer to supporting materials: DR01 – Question 6b c) Liberty's QA/QC of detailed inspections is a random sample, so it is not specific to ease provide Liberty's internal protocols, procedures, or checklists regarding the QA/QC audit process for asset inspections. Liberty conduct field audits of each inspector's work to validate the results of an asset inspection? inspectors. he answer to part (c) above is yes, who will conduct the field audits (e.g., a supervisor, a peer inspector, or a contractor) and when will the field d) N/A y states on p. 35 of its 2025 WMP Update, in response to Area of Continued Improvement LU-23-13: Lightning arrestor replacement: a) No. ding the currently installed non-exempt arresters, Liberty's asset tracking application will be utilized to identify and track arresters in the field. b) The timeline for finalizing the development of arrestors in Liberty's asset tracking n an exempt arrester is selected, Liberty will use the asset tracking application for project tracking. a) Has Liberty completed the application is not determined at this time. c) Liberty does not have this information at this time. lopment of the "asset tracking application"? the answer to part (a) above is no, when will Liberty complete the development of the "asset tracking application"? d) No. w many non-exempt arresters are currently in place across Liberty's service territory? e) Not determined. f) Not determined. bes Liberty have plans to replace all non-exempt arresters currently in place across Liberty's service territory? w many non-exempt arresters will be replaced in 2024? ty states on p. 36-37 of its 2025 WMP Update, in response to Area of Continued Improvement LU-23-15: Reliability impacts of SRP: a) Refer to supporting materials: DR01 – Question 8 and 9 ty plans to implement its SRP program on 15 circuits in 2024 and seven circuits in 2025, which will result in 67.45% of Liberty's primary distribution b) Refer to supporting materials: DR01 – Question 8 and 9 uctor being covered by SRP by the end of 2025..... Based on an analysis of historical weather data for the system, Liberty estimates approximately (c) Refer to supporting materials: DR01 – Question 8 and 9 days per year when SRP will be enabled. a) How did Liberty determine that the 22 circuits that d) Yes. have SRP implemented (15 in 2024 and seven in 2025) would result in a 67.45% coverage of Liberty's primary distribution conductors? Please show e) N/A f) Liberty plans to implement SRP across all of Liberty's primary distribution conducto calculations or provide workpapers. hen Liberty implements SRP on the 15 circuits in 2024, what is the total percentage of coverage that Liberty will achieve on the primary distribution the 2026-2028 WMP cycle. g) The origin of the 10-12 days estimate comes from SFDI rating definition, which is " uctors? hen Liberty implements SRP on the seven circuits in 2025, what is the total percentage of coverage that Liberty will achieve on the primary at 97th percentile or above, i.e. 3% of days of the year. 365 days * 3% = 11 days, which bution conductors? broadened to 10-12 days. bes Liberty plan on implementing SRP across all of Liberty's primary distribution conductors? e) If the answer to (d) above is no, what is the estimated percentage of coverage that Liberty will achieve? ne answer to part (d) above is yes, when will Liberty achieve its goal of full coverage across all of Liberty's primary distribution conductors? ase provide the historical weather data used by Liberty to estimate that SRP will be enabled approximately 10-12 days per year. a) Refer to supporting materials: DR01 – Question 8 and 9 y states on p. 36-37 of its 2025 WMP Update, in response to Area of Continued Improvement LU-23-15: Reliability impacts of SRP: y plans to implement its SRP program on 15 circuits in 2024 and seven circuits in 2025, which will result in 67.45% of Liberty's primary distribution b) N/A uctor being covered by SRP by the end of 2025..... Based on an analysis of historical weather data for the system, Liberty estimates approximately (c) Refer to supporting materials: DR01 – Question 8 and 9 d) Refer to supporting materials: DR01 – Question 8 and 9 days per year when SRP will be enabled. e provide a list of the 22 circuits that have been identified for SRP implementation, with the following information about each circuit: e) Refer to supporting materials: DR01 – Question 8 and 9 rcuit ID number f) Refer to supporting materials: DR01 – Question 8 and 9 cuit-segment name or ID number (if the projected SRP switch affects more than one-circuit segment, please identify each one) g) Refer to supporting materials: DR01 – Question 8 and 9 ar of planned implementation (2024 or 2025) ow many SRP switches will be implemented across the circuit e expected or actual start date of the project e expected completion date of the project gth (in circuit miles) of each project y states on pp. 40-41 of its 2025 WMP Update, in response to Area of Continued Improvement LU-23-20: Early detection of Ignitions with HD a) UNR has completed the viewshed analysis and shared relevant results with Liberty eras, that "University of Nevada Reno (UNR) is performing a view shed analysis to propose locations of existing cameras for Liberty to adopt or 15, 2024. ntially install new cameras where current coverage is lacking for the service territory." a) When does b) Liberty is currently reviewing the proposal and budget from UNR for set-up of new ty expect that UNR will complete the view shed analysis? cameras within the service territory and maintenance of existing cameras that lack s Liberty developed any policy or procedures related to the implementation and maintenance of the HD wildfire cameras? sustainable funding. New cameras are being proposed in areas that were missing cov the answer to part (b) above is yes, please provide Liberty's policy and procedures for the implementation and maintenance of the HD wildfire the viewshed analysis done by UNR. Liberty has not yet entered into a contract with l these cameras and does not have any existing policy or procedures related to the bes Liberty know of any HD cameras (or cameras of similar function) within its service territory that it does not own? implementation and maintenance of the HD wildfire cameras. bes Liberty have access to any HD cameras (or cameras of similar function) within its service territory that it does not own? c) N/A ne answer to part (e) above is yes, please list the HD cameras or cameras of similar function that are within Liberty's service territory including: d) Yes. There are currently 22 fire detection cameras that cover areas within Liberty's territory. These cameras are available through the ALERTWildfire Program that is a nom the cameras belong to e camera's or cameras' location consortium between UNR and University of Oregon. ow Liberty has gained access to footage from the cameras e) Yes, similar to the previous answer, these cameras are publicly viewable through alertwildfire.org. f) Fire Cameras that cover Liberty's Service Territory: (See response link for table) y's response to question 4 of data request CalAdvocates-Liberty-2025WMP-01 states: "Liberty does not have a previous version [of its Spacer Water intrusion: Safety Standards – Meets construction standards; Taps and Splices Inspection Checklist]." Splices covered with Hendrix KM splice or equivalent; Hardware/Messenger – Adequa e explain which portions of the Spacer Cable Inspection Checklist, found in Appendix A of Liberty's 2025 WMP Update, correspond with the each | between phase conductors. e identified failures specific to covered conductor listed below: Water intrusion; Splice Splice covers: Safety Standards – Meets construction standards; Taps and Splices – s; Surface damage/bulging; Bracket placement covers used on transformers. • Surface damage/bulging: Meets construction standards; Material – Used all Hendrix approved components; Material – Only covered Tie Wires used; Taps and Splices – Ru covered transformer tap wire used. Bracket placement: Safety Standards – Meets construction standards; Taps and Spli Anti Sway brackets (BAS-14/24) used at poles with taps. cy's response to question 7(b) of data request CalAdvocates-Liberty-2025WMP-01 states that "The timeline for finalizing the development of a) The asset tracking application is already developed and in production use. Liberty enhance the application over the 2026-2028 WMP cycle to add tracking for lightning stors in Liberty's asset tracking application is not determined at this time. Il Liberty start the planning and development of the asset tracking application during the 2026-2028 WMP cycle? the answer to part (a) above is yes, does Liberty plan to consult with a third-party vendor or to develop the asset tracking application internally? b) Liberty developed the application internally using the third party application Fulcru Liberty plans to use a third-party vendor, please provide the name of the vendor and a description of the projected duties and responsibilities plans to develop future enhancements internally. ed to the development of the asset tracking application. c) N/A es Liberty currently have processes in place to track and record which non-exempt lightning arrestors have been replaced across its service d) No; Liberty has not replaced non-exempt lightning arrestors across its service terri the answer to part (d) above is yes, provide a copy or description of Liberty's processes regarding replacement of non-exempt lightning arrestors.
