**Docket# 2024-SCs**

November 6, 2024

Caroline Thomas Jacobs  
Director, Office of Energy Infrastructure Safety  
715 P Street, 20th Floor  
Sacramento, CA 95814

**SUBJECT:** Southern California Edison Company's 2024 Safety Certification Request – Addendum

Dear Director Thomas Jacobs:

Pursuant to California Public Utilities Code Section 8389(e) and (f) and the Office of Energy Infrastructure Safety's (Energy Safety) Safety Certification Guidelines,<sup>1</sup> Southern California Edison Company (SCE) submits this addendum to its safety certification request.

SCE timely submitted its safety certification request on October 8, 2024, noting that Energy Safety was still in the process of considering its 2025 WMP Update.<sup>2</sup> On October 31, 2024, Energy Safety issued a Final Decision approving SCE's 2025 WMP Update. With the approval of its 2025 WMP Update, SCE has met the requirements of Public Utilities Code Section 8389 (e)(1)<sup>3</sup> via this update to its original October 8, 2024 request.

Please contact me if you have questions regarding this submission.

Sincerely,

//s//

Michael Backstrom  
Vice President, Regulatory Affairs
