

To: Data Guidelines Docket (#Data Guidelines)

Date: December 12, 2024

Re: Revision to Comment Period End Date

On December 9, 2024, the Public Advocates Office, California Public Utilities Commission (Cal Advocates), requested an extension of the public comment period for the Draft Data Guidelines v4.0. The current deadline is December 18, 2024. Cal Advocates requested an extension to December 23, 2024, to allow stakeholders to adjust their written comments based on the December 16, 2024 public workshop discussion. Cal Advocates indicated there was no opposition from other stakeholders to the extension request.

Therefore, Energy Safety approves the request and extends the public comment period for the Draft Data Guidelines v4.0 to December 23, 2024.

Sincerely,

A handwritten signature in black ink that reads "Shafi Mohammed". The signature is written in a cursive, flowing style.

Shafi Mohammed
Chief Data Officer
Office of Energy Infrastructure Safety
