

**CALIFORNIA UNDERGROUND SAFETY BOARD
INVESTIGATION DIVISION
INVESTIGATION REPORT**

Date: December 12, 2024
Case No.: 23NTS0019

Violations:

Advanced Erosion Services Corporation, dba AES Construction Services
Government Code § 4216.2(b): Excavating without first contacting a Regional
Notification Center

Government Code § 4216.4(c)(2): Failure to call 911 upon causing damage to a natural
gas facility

Government Code § 4216.4(c)(3): Failure to notify the Regional Notification Center of
damage to a natural gas facility

Executive Summary:

On the morning of November 20, 2023, Advanced Erosion Services Corporation was grading a residential side yard at 32518 Gonsalez Court in Menifee, California 92584, when it struck a ½" plastic gas facility. It did not have a ticket for the grading work and did not notify the Regional Notification Center of the damage it caused to the natural gas facility.

No injuries or fatalities occurred. Southern California Gas Company reported the excavation and the damage to the California Underground Safety Board.

Reporting Party Information:

Southern California Gas Company
Regional Notification Center Member Code: SCG10M
555 West 5th Street, Suite 1700
Los Angeles, California 90013

Date of Incident:

November 20, 2023

Location of the Incident:

32518 Gonsalez Court
Menifee, California 92584

Operator:

Southern California Gas Company
Regional Notification Center Member Code: SCG10M
555 West 5th Street, Suite 1700
Los Angeles, California 90013

Excavator:

Advanced Erosion Services Corporation dba AES Construction Services
175 North Cawston Avenue, Suite 170
Hemet, California 92545

Facility Types Damaged:

½" plastic natural gas service facility

Investigation:

Notification of the Incident

On December 11, 2023, at 2:25 p.m., the California Underground Safety Board (Board) received damage notification number 23NTS0019 from the Southern California Gas Company. The notification stated, on November 20, 2023, Southern California Gas Company learned, “Third-party grading for new homes without a valid USA ticket hit the ½ plastic service with the backhoe.” It also stated that Advance Erosion Services Corp. was the excavator, and the damage happened at 32518 Gonsalez Court, Menifee, California 92584. (Exh. 1.)

The case was assigned to Investigator Jeff McClenahan (Investigator).

Identity of the Excavator

Government Code section 4216(h) defines an excavator to be “any person, firm, contractor or subcontractor, owner, operator, utility, association, corporation, partnership, business trust, public agency, or other entity that, with their, or his or her, own employees or equipment performs any excavation.”

Advanced Erosion Services Corporation dba AES Construction Services is currently licensed by the California Contractors State License Board, license number 899468, with a C12-Earthwork and Paving and a B-General Building Classification. (Exh. 2.)

Identity of the Operator

Government Code section 4216(o) defines an operator to be “any person, corporation, partnership, business trust, public agency, or other entity that owns, operates, or maintains a subsurface installation.”

On November 20, 2023, Southern California Gas Company employee Juan Garcia Lopez was notified via internal company email of a damage to its ½" plastic natural gas service facility at 32518 Gonzalez Court, Menifee, California 92584. (Exh. 1.)

Advanced Erosion Services Corporation Did Not Notify the Regional Notification Center Before Excavating on November 20, 2023

Government code section 4216.2(b) requires an excavator to contact a regional notification center prior to excavating.

Government code 4216(g) states: “Excavation” means any operation in which earth, rock, or other material in the ground is moved, removed, or otherwise displaced by means of tools, equipment, or explosives in any of the following ways: grading”

On January 26, 2024, Armando Lovera, an estimator for Advanced Erosion Services Corporation dba AES Construction Services (AESC), emailed responses to questions from the Board’s investigator. One response stated, “AES did not obtain a 811 tickets. We did no do any excavation whatsoever, we were grading the side yard of the house only.” (Exh. 3.)

On July 30, 2024, Investigator emailed DigAlert requesting a ticket search for AESC, and received tickets from January 1, 2023, through November 30, 2023, for 32518 Gonzalez Court, Menifee, California 92584. (Exh. 4.)

Amber Dahl, Safety Awareness Director at DigAlert, emailed the ticket search results on July 30, 2024. The ticket search results provided by DigAlert contained 5 tickets, none of which were created as a result of AESC contacting DigAlert. (Exh. 5.)

Excavation and Damage

On January 26, 2024, AESC’s estimator Armando Lovera, emailed responses to the Board’s questions sent with the Case Announcement and stated:

- AESC finished grading the side yard of the house and they did not consider this work to be excavation.
- That at approximately 9:30 a.m. on November 20, 2023, AESC was grading with a skip loader, with a rear scraper attachment, when they damaged a gas connection pipe where a gas meter would later be installed at the residence.
- That the construction manager contacted Southern California Gas Company after the damage. (Exh. 3.)

Advanced Erosion Services Corporation Did Not Notify the Regional Notification Center After Damaging the Natural Gas Service Facility

Government code section 4216.2(b) requires an excavator, except in an emergency, to notify the regional notification center of the excavator's intent to excavate at least two working days before beginning excavation.

After damaging the gas line, AESC did not notify DigAlert. On July 16 and July 30, 2024, Investigator emailed DigAlert requesting a ticket search for 32518 Gonsalez Court, Menifee, California 92584, and received tickets from January 1, 2023, through November 30, 2023. (Exhs. 4, 5, and 7.)

Amber Dahl, Safety Awareness Director at DigAlert, emailed the ticket search results on July 30, 2024. (Exh. 7.) The ticket search results from DigAlert contained 5 tickets in the area, none of which were created as a result of AESC contacting DigAlert after the damage. (Exh. 5.)

Advanced Erosion Services Corporation did not notify 911 after damaging the natural gas service facility

Government Code section 4216.4(c)(3) requires an excavator to notify the regional notification center of a damage to a natural gas facility.

AESC did not notify 911 after damaging the gas line. On December 23, 2024, the investigator submitted a Public Records Request to the Riverside County Sheriff's Office for dispatch logs or incident reports related to the dig-in at 32518 Gonsalez Court. (Exh. 6.)

On December 27, 2024, the investigator received an email from the Riverside County Sherriff's Office stating it had searched its database and found no records related to the investigator's request. (Exh. 6.)

Findings:

1. Advanced Erosion Services Corporation did not notify the regional notification center of its intent to excavate at 32518 Gonzalez Court, Menifee, California 92584, on November 20, 2023.
2. Advanced Erosion Services Corporation did not notify the regional notification center of the damage it caused at 32518 Gonzalez Court, Menifee, California 92584, on November 20, 2023, to a natural gas facility.
3. Advanced Erosion Services Corporation did not contact 911 of the damage it caused at 32518 Gonzalez Court, Menifee, California 92584, on November 20, 2023, to a natural gas facility.

Hi Jeff,

Sorry for the late response, I just found your email.

Yes, that is the correct license number.

And the address is the correct one as well.

Like I mentioned before there was no excavation done by us. We did not use a backhoe just a grading tractor with a scraper bucket in the rear to finish grade surface.

There was only one gas pipe service for that house.

Any more questions feel free to contact me.

Thank You

Armando Lovera, estimator.

Hi Armando and Maria,

I'm closing out this case and need you to confirm a couple things for me:

Is the AES Construction Services CSLB License # 899468?

Confirm the address and date of the grading damage to the gas pipe described.

I have a report of an AES backhoe natural gas excavation damage on November 20, 2023 at 32518 Gonzalez Court in Menifee, but what you described below sounds like a different damage. Were there two natural gas damages on this project or nearby?

Hi Jeff,

Please see responses below.

1. Area wasn't delineated, there was a gas pipe sticking out where the meter was to be installed after.
2. AES did not obtain a 811 tickets. We did no do any excavation whatsoever, we were grading the side yard of the house only.
3. As I mentioned before we didn't perform any excavation at all.
4. No 811 ticket obtained prior.

5. We have no written policies in regard to 811 calls. As I mentioned before we do not do any excavation.
6. No 811 ticket obtained prior
7. Main builder Richmond American Homes
8. Finish Grading

10. John Deere 210 Skip Loader and 7510 Kubota Tractor
11. Advanced Erosion owns the equipment
12. See attachments.
13. 9:30AM to 10.00AM approximately.
14. Jobsite area must be walk and inspected prior to start to assess for any existing damages, mark and identify existing utilities.
15. Rear scraper attached on the skip loader.
16. Operator saw the damage as it happened, then turned off the equipment and alert the construction manager who immediately, who called the gas company.
17. We have no policies in place specific for excavation incidents. I'll work with our safety consultant to create and train our personnel in regards of this issue.
18. Shut down all equipment, Informed the site construction manager immediately about the incident so then she called the gas company. Get all personnel working in the immediate area to a safe distance and wait for the gas company to show and contain the leak.
19. No injuries
20. Make sure to call for a 811 tickets prior to work start .Train personnel to stay away as far as possible from the gas pipe. Identify potential risk if working near the gas connection.
21. See attachments
22. Gas connection pipe where the gas meter is to be connected was pulled and disconnected from yellow gas hose buried.

I have answered your questionnaire to the best of my abilities.
Should you need more information feel free to contact us.
Thank You

Subject: Underground Safety Board: Case Announcement 23NTS0019

Hi Armando Lovera,

I'm Jeff McClenahan with the Underground Safety Board, Investigations Division. I've been assigned to follow up on notification 23NTS0019 about an excavation incident involving excavation without an 811 ticket with damage to natural gas utility on 11/20/2023 at approximately 32518 Gonzalez Court, Menifee California 92584.

The Board investigates excavation incidents to understand what happened, determine whether any potential safety violations were involved, and better understand how to prevent future accidents.

See the information request attached and by 1/12/2024 please forward any records you have associated with this incident such as photos, USA Tickets, written communications, or other documentation.

Please let me know a good day for an interview and please retain all records that pertain to this incident for our discussion.

I also have a series of questions for you in advance which in some cases could take the place of an interview.

Please respond to the best of your ability and call me at 279-789-1818 if you have any questions or would prefer to speak by phone.

Thanks for your time to help improve public safety in California.

Questions

1. Was the area delineated prior to the incident? If so, how was it delineated? Please provide the photos demonstrating the delineated area.
2. When did Advance Erosion Services Corporation obtain an 811 ticket?
3. Were you aware that you needed to contact 811 to notify them of your planned excavation?
4. Could you please provide a copy or number for your 811 ticket?
5. Please provide all written policies and procedures regarding obtaining an 811 ticket and delineating the jobsite.
6. Did Southern California Gas Company respond to the 811-ticket request? If so, when and how did they mark their facilities?

7. Who hired you to complete the project?
8. What was the scope of work for this project? Please provide the job contract.
9. How many people did you have on the job site that day? Please provide names and contact information for all personnel on the job site.
10. What equipment was used to perform the work?
11. Who owns the equipment used for the job? If the equipment was rented; please provide the rental contract with the name and contact information of the vendor who rented you the equipment.
12. Please provide all written policies and procedures regarding the use of equipment at the jobsite.
13. Approximately what time did the incident happen?
14. How did [insert excavation company name] prepare the jobsite prior to the work beginning?

15. What tool/equipment made contact with the [insert damaged] facility at the time of the incident?

16. How did Advance Erosion Services Corporation learn that the Southern California Gas Company facility was hit/damaged?
17. Please provide all written policies and procedures regarding what to do after an excavation incident occurs.
18. How did Advance Erosion Services Corporation respond to the incident?
19. Were there any injuries to any personnel on site?
20. What would Advance Erosion Services Corporation have done differently to prevent another similar incident in the future?
21. Could you please provide a copy of all the photos taken at the site.
22. Please describe all the property damages, injuries, fire, etc, caused by this incident.
23. Is there any other information which you feel is important to this incident?

RE: Public Records Request of December 23, 2024, Reference # C001669-122324

Dear Jeff McClenahan,

On December 23, 2024, the Riverside County Sheriff's Office received your request for records under the California Public Records Act (CPRA) wherein you requested the following:

"Dear Custodian of Records,

This letter is a request for a copy of police or fire dispatch call logs, 911 audio recordings and any incident reports from responding emergency personnel for a natural gas excavation dig-in on November 20, 2023 at approximately 9:30am at 32518 Gonsalez Court Menifee, California 92584.

The Office of Energy Infrastructure Safety is currently investigating the incident per California Government Code 4216.19.

If any fees are accrued per our request, please advise and we will address accordingly. Any information received will be beneficial to our investigation. If you have any questions, feel free to contact the investigator."

The Riverside County Sheriff's Office has reviewed its files and no records responsive to your request was located.

Please consider this CPRA request closed.

Sincerely,

Corr. Sergeant Ramo Griffin
CPRA Unit
Riverside County Sheriff's Office

Yes that is the only revision.

Thank you,

Amber Dahl, Safety Director

Can you confirm there is only one "revision" associated with A232630845? I don't see that ticket in the large file but the copy with the map works if that is the only ticket in the series.

Providing the maps for each revision on each ticket would be too large to transmit. However, I can provide you with the map on the last revision of each ticket. The map does not change for each revision. Gonzalez Court is not shown on our map. It is shown on Google's map, that is how our Customer Service Reps were able to determine the drawing on DigAlert's map.

I went ahead and searched from 1/1/23 to 11/30/23. Ticket B191820132 should have been provided to you from the original request. Sorry, how it was worded I did not think it was related; however, the written description does include Gonzalez Ct. The file is large, as I provide the entire history of the tickets and B191490165 & B191820132 began in 2019, so you will have to copy AND then paste the below link to your web browser to view/print/save file. The link will be deleted after 10 business days.

To follow up on this (Sorry I will extend the search in the future!), could you add on October 2023 to the search and see if there are any tickets that month?
